**NEW SUSPECT** in the March 4 murders of Richard and Anna Kube in their home at 25th and Iowa streets is shown in this composite released Friday by Granite City police. A man of this description was seen on the Kube property beside their home early the afternoon of the murders by a witness who contacted police after a Press Record article on the case last week.

## Crash with tree fatal

Darrell K. Hamilton, 23, of 322 Sammy Shores Mobile Home Park, was pronounced dead in the 4700 block of Lake Drive near Pontoon Beach at 6:10 a.m. today. He apparently suffered when a pickup truck struck a tree at the edge of the street.

A man residing in that block told authorities he heard a loud noise at 5:15 a.m. today and looked out his window but did not see the truck. A motorist discovered the damaged truck at 5:30 a.m. today and notified authorities.

Mr. Hamilton was found inside the truck. Cause of death was pronounced dead at the scene by Madison County Deputy Coroner Edward

(continued on Page 3)

DARRELL HAMILTON

## Safety improvements at 2 housing projects

An extensive modernization program by the Granite City Housing Authority which will provide additional safety measures is scheduled to begin in October, it was disclosed Friday by David W. Morgan, executive director.

The plan will be financed by a \$1.75 million grant from the U.S. Housing and Urban Development Agency.

The program will include new "up roofs" for the 40 buildings in the Kirkpatrick House and Anchorage complex.

The present flat roofs are 20 years old and causing maintenance problems. Morgan said the new roofs will enable the apartments to be heated better and also will make them cooler in summer.

Bolted steel front doors, with peep-hole holes, also are to be installed along with new storm doors and canopies over the backs of the apartments.

Plastic light fixtures both front and back doors of the apartments also are planned.

There are 451 apartments in

Kirkpatrick Homes and 200 in Anchorage, housing approximately 1,500 persons.

Morgan made the proposal for improvement to the United States Department of Housing and Urban Development (HUD) in March.

Congressman Melvin Price (D-3rd, Ill.) informed Morgan Friday that the \$1.75 million grant from HUD had been improved.

Morgan said he and the local housing board will begin to prepare specifications and select an architect soon.

## On and off the record Blue today? Here's why

Got the Monday blues? Then quit sleeping late on Sunday morning.

That's the advice based on psychological research at the University of Florida.

"Most people who sleep late on Sunday morning probably doesn't stay awake as long as he does on other days," the researchers say. "Then he has trouble falling asleep again on Monday night, which makes him feel poorly and wakes up feeling rotten on Monday morning."

"This follows a psychological fact that the time you are away, the harder it is to get to sleep. The body generally adheres to a schedule of eight hours of sleep and 16 hours of wakefulness."

"Let's say you normally wake up at 7 a.m. on weekdays and

go to bed at 11 p.m. But on Sunday you give yourself a treat by sleeping until 10 a.m. That means your body probably won't like sleeping again until 9 a.m."

"The remedy? Get up at your regular time on weekends, even though you may like taking an extra 40 winks. Monday morning is going to be a big day, get up earlier on Sunday so you'll be ready for sleep on Sunday night."

"This follows a psychological fact that the time you are away, the harder it is to get to sleep. The body generally adheres to a schedule of eight hours of sleep and 16 hours of wakefulness."

"Let's say you normally wake up at 7 a.m. on weekdays and

WHAT IS IT? A far cry from the powerful, precision equipment that now grinds, blends, and measures medicine's raw materials. It is a drug mill of the 18th Century which was hand-operated by the pharmacist himself. The extension at the base provided a seat for him, while simultaneously stabilizing the mill as he ground away.

## CYS needs volunteers

Persons with pickup trucks are being asked to donate one day a year to help the Granite City Recycling Center pick up paper.

David Lehne, a staff member at Coordinator Youth Services, was a guest at the Breakfast Kiwanis Club at met Thursday morning in Charlie's Restaurant. Volume, he said, contact Charlie at 456-2860, he said.

Sharon Smith gave a talk on how Radio Shack came into existence with their first store in Boston in 1923 and the growth of the company since, to the present 4,300 Radio Shack stores worldwide.

The stores in 1923 did a \$750 million business. He noted that Radio Shack has three goals:

reliability, performance and competitive price, and they are not interested in price unless the product is reliable.

The club will hold a business meeting Thursday, and on July 1 Dr. Thomas Layfield will have the program.

## Urge locks 26 replacement

A 17-member delegation of agricultural, business, and labor leaders Thursday urged support of the replacement of a vital link in Midwestern waterborne commerce—Locks and Dam 26 at Alton, Ill., on the Mississippi River.

Led by Illinois Farm Bureau President, Harold B. Steele, the contingent included David Roderick, president of U. S. Steel Corp., Pittsburgh, and James Bailey, legislative advocate of the United Brotherhood of Carpenters, Washington, D. C.

Farm Bureau President Steele noted that locks and Dam 26 is a strategic gateway for barge traffic on both the Illinois River and Upper Mississippi River.

All down-river barge traffic from the Minneapolis-St. Paul area and from the Chicago area and other points along the Illinois River, as well as river traffic from the lower Mississippi, the Missouri, the Arkansas, and the Ohio Rivers, funnels through the locks in the movement of grain, coal, petroleum, construction steel, and other commodities to and from the upper Midwest.

"Farmers are dependent upon the waterways and a major dependable lock at Alton is essential to moving farm products to market and in

turn to moving into Illinois the needed fuel, chemicals, and other supplies needed for the efficient production of food," Steele said.

U. S. Steel Corp. President Roderick told the Illinois members of Congress: "It should be clearly understood that failure to act affirmatively on the Lock 26 replacement will have a substantial and adverse effect on the steel industry in the Chicago area."

"This adverse effect will be shared by industry and its employees; the farmer, by reducing or at least eliminating production facilities in this area, and the latter by loss of employment opportunities."

"You, in effect, must decide if our country's ports are important that they justify a serious impairment of Illinois industry to effectively compete in domestic and international markets."

"The need for good, efficient economic water transportation was cited by John E. Harvey, director of corporate transportation, Archer Daniels Midland Co., Decatur, Ill. ADM is a multi-plant business engaged in the handling and processing of grains and oilseeds for U. S. and World market distribution.

"Over the past seven years,

the procurement of soybeans

for Decatur has reverted from 10 per cent to over 90 per cent truck, and during harvest as many as 700 large trucks are loaded daily," Harvey said.

It is estimated that ADM at

Decatur handles about 70,000

trucks a year. Over 50 per cent

of the total Decatur production

is moved to Alton, Ill. for barge loading.

All the barges so loaded must

clear Locks and Dam 26 and all this tonnage is for export. No single carrier made can possibly handle all ADM's transportation demand, let alone that of the State of Illinois.

Locks and Dam 26 is an essential and critical element in this demand."

ADM also operates a soybean

processing plant in Granite

## Banks to issue special July 4' savings bonds

All Quad-City banks will, on request, issue Bicentennial-designed Series E Savings Bonds dated July 4 to over-the-counter customers between July 1 and July 10.

By special authorization of the U. S. Treasury Department, all bonds issued during the month of July may be dated at the valid issue date. In addition, the special design Bonds will feature pictorial vignettes from America's history.

This special Bicentennial commemoration will have no effect on the value or condition of the bonds. The bonds will bear interest from July 1, 1976, regardless of the validation date.

In making the joint announcement, a spokesman for the area banks said, "We are pleased to be able to offer

everyone in this area a chance to make the purchase of Savings Bonds a Bicentennial event. Certainly there can be no better Bicentennial souvenir than one or more of these 'Shares in America' bearing the date of our country's 200th birthday."

Denominations of the Bicentennial-design Series E Savings Bond range from \$25 to \$1,000, with purchase prices of \$18.75 to \$750. They draw six percent interest annually for a four-year maturity (4½% the first year), and carry an automatic 10-year extension of interest beyond maturity.

The special dating applies to bonds issued over-the-counter; those issued through payroll savings plans are not eligible for the commemorative dating.

## Madison Lions to install

Richard Bright, Madison, will be installed president of the Madison Lions club Thursday evening.

Past District Governor

Manuel Lopez will serve as

installing officer of the event

that will begin with a social hour at 5 p.m. followed at 6 p.m. at Connie's Restaurant.

Officers being installed in addition to Bright are Emmett Pazio, Anthony Anselmo and

Salvator DeMura, all vice-presidents; James Ruskoosky, secretary; Matt Ozanich, treasurer, and Gary Urkran, tallitwister.

All area Lions and their guests are welcome to attend and participate in the event by contacting Ozanich at 876-6553 or 876-5240, Wednesday, Cost is \$7.50 per person.

Albert Hudzick is the retiring Lion president.

Lioness Priscilla

**News notes**

While the cost of repairing Locks and Dam 36 at Alton has been estimated by the U.S. Army Corps of Engineers at \$60 million, five engineering studies say that the work can be done for \$46,300,000. Senator Gaylord Nelson (D-Wisconsin) commented during the weekend.

+++

Another premium hike of 34.3 per cent in workmen's compensation insurance was announced Friday by the Illinois Insurance Department. The order is expected to trigger a new round of bargaining that benefits approved by the legislature last year are damaging Illinois' business climate. Some premiums rose 50 per cent last year.

Passengers of the Bi-State Transit System rose in 1975 to a total of 60.3 million, an increase of 14 million, the East St. Louis Gateway Commission Council reported. A report on transportation in the metropolitan area also was up although air freight decreased

Q

What are your duties as a  
funeral director?

A

Since the beginning of time  
funerals have been called upon at  
the time of death to carry out the  
necessary religious and legal  
requirements of burial.

Today we have the need  
of people to turn to someone thoroughly  
qualified. Although our facilities have been continu-

ally updated throughout the years, our ability  
to function as a funeral director has not changed.

We are charged with arranging the details of a funeral service, including certificates, Social Security and Veteran forms, newspaper notices, burial or transit permits, cemetery authorization forms — all pre-  
counseling processed by us.

A funeral is essentially a religious ceremony. Because  
of this fact, we must be aware of the religious denomi-

nations in our present day society and the mobility

required to assist the family and the clergymen in the  
proper conduct of a funeral service.

**News notes**

RANSACKED GYM at Stallings School as discovered by custodians last week following a burglary. Four youths subsequently were arrested and items stolen.

from the school were recovered. There was a great deal of ransacking and vandalism, officials reported.

(Press-Record Photo)

**Wide variety of food offered MRF patrons**

"Meeting anyone's needs for a meal" might be a theme for the Food Service portion of the Mississippi River Festival, held on the campus of Southern Illinois University at Edwardsville.

With available menu items ranging from hamburgers and hot dogs to veal cordon bleu, "we offer anything anyone might want," promises MRF Food Service Manager Eleanor Alexander.

Standard offerings for those interested in making an MRF outing a complete evening include the usual snack foods and box lunches, as well as special picnic baskets, buffet dinners,

table service meals, and hors d'oeuvres for parties. But that's just part of the fun of dining out under the stars, Mrs. Alexander said.

"With a week or so notice, we can develop virtually anything," she said. "It's a good place to come and have the meal of their choice while enjoying a performance."

The picnic baskets, which cost about \$3.50, are available with or without notice, said Mrs. Alexander.

"And the baskets include a cheese and fruit platter, a fried chicken basket, a southern barbecue basket, and a continental basket."

**Crash fatal**

(Continued from Page 1)  
Werner believed to have died in the cause of his death. There were no other serious injuries, authorities reported.

A witness said the truck appeared to have struck the tree, "decelerating" the front of the vehicle, causing a deep "W" in the front of the truck.

Mr. Hamilton is survived by his parents, Mr. and Mrs. Delbert — Norma Hamilton of Harrison, Harrison, and two brothers, Stephen Hamilton of Godfrey and Mark Hamilton at home.

Funeral arrangements may be found in today's obituary column.

**IRS exams for tax aides set**

September 27 and 28 have been selected as the test dates for the 1976 Special Enrollment Examination, the Internal Revenue Service has announced.

The examination gives each year to tax professionals who are neither CPA's nor attorneys to represent clients before the IRS, will be held in Springfield.

To qualify for the examination, applicants must file Form 257, Application for the 1976 Special Enrollment Examination, to the Director, Audit Division, Internal Revenue Service, Washington, D.C. 20224 no later than Aug. 20. No actions to file will be granted beyond that date, the IRS said.

The application must be accompanied by a recent photo of the applicant, which will be given to each professional who is taking the exam, and a fee of \$15. The fee is non-refundable, but \$25 will be granted upon filing on the next year's application as provided in the instructions on the back of Form 257.

Anyone needing an application Form or more information about the examination may contact the District IRS office at 325 W. Adams St., Springfield, Ill., or call IRS toll-free at 800-222-2222. Applicants from Springfield and surrounding areas may call 789-2222.

**False fire alarm**

Residents and visitors at Colonial Haven, 1000 Edison Avenue, were surprised at 10:50 p.m. Sunday when a faulty heat detector turned on, summoning Granite City firemen. There was no fire.

This was not the first false alarm at the building. Firemen were on the scene 25 minutes.

**Undergoes surgery**

Mrs. Marilyn Rooney, 2904 State St., is patient at St. Elizabeth Hospital where she underwent major surgery. Mrs. Rooney, a teacher at Frohardt School, is a patient in Room 442.

# Exchange rings in candlelight settings

GRANITE CITY PRESS-RECORD Mon., June 21, 1976 Page 4

## Vicki McFain becomes Mrs. Richard Kayser

Miss Vicki Ann McFain, a daughter of Mr. and Mrs. William McFain, 2254 Kilarney Drive and Richard and Walter Kayser, both of Granite City, Edgar Kayser, Rural Route One, Granite City, exchanged wedding vows in a candlelight setting on May 22 at St. John United Church of Christ.

The Rev. Dr. Paul Surbey and Rev. Dr. David Fiedler, minister of Hope Lutheran Church, performed the double ring ceremony at 6 o'clock in the evening.

Organist Mrs. Irene Rapp accompanied Brenda Mueller as the song "We've Only Just Begun" and "The Wedding Song."

Escorted down the white carpeted aisle and given in marriage were the bride and groom in a lime green of white organza featuring an Empire bodice, cap sleeves and wedding band neckline.

Venise lace motifs were appearing on the bodice and Empire lace encircled the hemline and chapel train.

A Juliet cap created in Venise lace secured her shoulder length veil and she carried an arrangement of pink carnations and baby's breath.

Miss Vicki Ann McFain chose a light blue polyester long gown with a corsage of stephanotis and baby's breath.

The groom's mother was adorned in a pink double knit gown with a pleated chiffon jacket. Her corsage was of pink carnations and baby's breath.

Gusta was received by the newly married couple at a reception held at the Officers Club of the Granite City Army Installation.

Mr. and Mrs. Kayser parents of the groom, hosted a rehearsal dinner at George Lindsay's restaurant.

The bride is a 1976 graduate of Southern Illinois University at Edwardsville where she received a BA degree in Human Services.

The groom is currently employed at AMAX Zinc Co., Saugatuck, Ill. They are now residing in Granite City following a wedding trip to New Orleans La., Houston and Galveston, Tex area.

Each attendant wore a pink

tulle hat and held a bouquet of carnations and baby's breath to match her attire.

The groom chose his brother, Al Kayser, son of Donald Kayser, another brother and Tom Dargatz served as groomsmen. Seating the guests were Roger McFain, the bride's brother and Doug Schreiber.

Lisa, the maid of honor, wore a yellow gown similar to the adult attendants and carried a basket of yellow carnations and baby's breath.

Greta Ambuehl was the ring bearer.

For her daughter's wedding Mrs. McFain chose a light blue polyester long gown with a corsage of stephanotis and baby's breath.

The groom's mother was adorned in a pink double knit gown with a pleated chiffon jacket. Her corsage was of pink carnations and baby's breath.

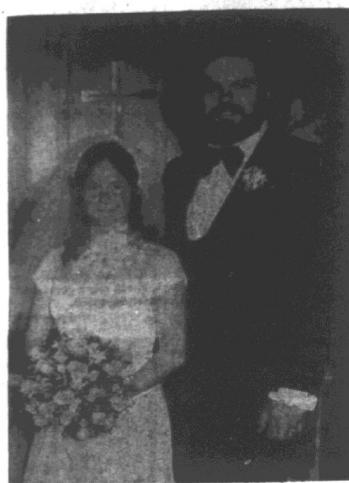

Gusta was received by the newly married couple at a reception held at the Officers Club of the Granite City Army Installation.

Mr. and Mrs. Kayser parents of the groom, hosted a rehearsal dinner at George Lindsay's restaurant.

The bride is a 1976 graduate of Southern Illinois University at Edwardsville where she received a BA degree in Human Services.

The groom is currently employed at AMAX Zinc Co., Saugatuck, Ill. They are now residing in Granite City following a wedding trip to New Orleans La., Houston and Galveston, Tex area.

Each attendant wore a pink

MR. AND MRS. RICHARD KAYSER who were married in an evening ceremony at St. John United Church of Christ. Formerly Miss Vicki Ann McFain, the bride is a daughter of Mr. and Mrs. William McFain.

## Senior volunteers to receive awards

John Keller, assistant director of Action in Washington, D.C. will attend the Retired Senior Volunteer Program's "One Year Award" ceremony Friday, June 25, at Fischer's Restaurant, 2000 East Broadway. He will present certificates to 138 senior volunteers including 34 from Granite City.

Mrs. Norma Mendoza, assistant director of the Retired Senior Volunteer Program (RSVP) of Granite City, said transportation has been arranged with buses leaving the Tri-Cities Area YMCA, 2001 Edison Ave., at 11 a.m. June 25.

There is no charge but reservations are required by Wednesday, June 23 by calling RSVP at 876-7200.

## Janet Corbin is betrothed

Mr. and Mrs. James E. Corbin, Rural Route One, Marine, Ill., formerly of Granite City, announced the engagement of their daughter Miss Janet Suzanne Corbin to Richard Lee Pickering of Wood River.

The prospective groom is a son of Mr. and Mrs. Lloyd Pickering, Springfield, Mo. He is a graduate of Southwest Missouri State University and University of Tennessee, and is currently a tennis and football coach at the Memorial High School in Bettendorf.

Miss Corbin was graduated from Triad High School and Southern Illinois University at Edwardsville.

The couple plan to be married on July 30.

## Ask us about an equity loan

**AMOUNTS AVAILABLE UP TO \$10,000**

There are times when everyone needs a large amount of cash. At such times, one of the best ways to raise money could be to borrow on the equity in your property.

While inflation has cut our buying power, it has increased the value of our property. This could be a source of money for you to consolidate your debts, pay medical expenses or buy those things that will make life more enjoyable for you and your family.

## Mrs. Lucy Williams and Elmer Baumeyer are wed

Mrs. Lucy L. Williams, 2532 Center St. and Elmer Baumeyer, 2804 Buxton Ave., were united in marriage on June 12 at St. John United Church of Christ.

The Rev. Dr. Paul Surbey officiated at the 7 o'clock evening ceremony. Preceding the service organist Mrs. Irene Rapp played "Always" and the Lord's Prayer.

For her former the former Mrs. Williams chose a pale blue street length polyester dress accented with lace motifs. She carried a white Bible topped with an orchid.

Attending the bride was Mrs. Eva Brady. She wore a pink dress and short nose tip pink veil secured with a lace motif.

Seating as best man was Walter Brady. Ushers were Jimmy McCart and Becky Lynn Fischer.

Flower girls were twins Lora and Lisa Wiser. They were dressed in pink gowns and had bows in their hair. Each carried a white basket filled with mixed blossoms.

A reception was held at the church following the service. Mr. and Mrs. George Tamm, son-in-law and daughter of the groom, hosted a rehearsal dinner in their home.

The newly married couple is now residing in Granite City after a wedding trip to the Smoky Mountains.

The bride is a member of the Eagle Auxiliary, Royal Neighbors, Granite Chapter 650, Order of Eastern Star, Gabriel Shrine 78, Order of the White Rose, a member of senior citizen bowling team and Senior Citizen Card Club.

Her husband also belongs to the Senior Citizen Card Club and is retired from Nesco Steel Barrel.

MR. AND MRS. ELMER BAUMEYER whose wedding was solemnized at St. John United Church of Christ. The bride is formerly Mrs. Lucy Williams, 2532 Center St.

(Faylie Photo)

## Lynda Kelley marries Donald Wayne Stratton

Miss Lynda Kay Kelley became the bride of Donald Wayne Stratton on May 29 in an evening ceremony at Tri-City Park Tabernacle.

Officiating at the ceremony was the Rev. Richard Stratton of Flora, Ill., a brother of the groom. The Rev. Calvary church pastor and the Rev. Dennis Woodruff, associate pastor. A reception followed the service in the church hall.

Parents of the couple are Mr. and Mrs. Charles Hartmann and Mrs. Carol Mendenhall.

Walter Hartmann and Mrs. Karen Bechtel. They were dressed in gowns in peach, mint green, aqua and orchid hues.

Philip Greenwood acted as best man and ushers were Dave Brown, Dan Burris, and Mike Green. Seating the guests were Johnny Kelley, a brother of the bride, Mark Stephens and Robert Pittman.

Cardholders were Miss Susan Compton and Mrs. Jane Monk.

Miss Lynette Kelley, a twin sister of the bride, was maid of honor and bridesmaids included Mrs. Carol Mendenhall, Mrs. Carol Mendenhall and Mrs. Karen Bechtel. They were dressed in gowns in peach, mint green, aqua and orchid hues.

Given in marriage by her father, the bride wore a full length gown of illusion organza trimmed in brocade lace featuring a round neck, long sleeves and full skirt.

Her floor length veil was held in place by a Victorian headpiece of pearls and lace. The bride was dressed in a white and red dotted swiss frock. She carried a basket of red rose petals.

Walter Ruemueler attended the wedding as best man. Madeline Coulter and Ronni Chadwick, daughters of the groom and Joseph North, the groom's brother, served as groomsman and ushers.

A reception was held in the church fellowship hall. Mr. and Mrs. Charles Wasylik, an uncle and the groom, hosted the rehearsal dinner.

Both young people graduated from Granite City High School South. The bride is employed at Granite City Trust and Savings Bank and her husband works at Houser Automotive.

They are residing in Granite City following a wedding trip to the Ozarks.

## Mrs. Westphal gives lesson

Mrs. Rachel Westphal gave a devotional lesson taken from the book of John for the meeting of the Progressive Class of Second Baptist Church, held last week at the church.

Seven hymns were sung by the class led by Mrs. Tina Muddings and Mrs. Elsie Sturdivant offered prayer for the sick. Roll call was registered by Mrs. Iva Biggs.

Plans were made for the group to provide cookies for the Bible School sessions.

Closing meditations were given by Mrs. Naomi Rongey followed by a devotion seen by hostess Mrs. Mary Vaughan.

Others present included Naomi Burnett, Lena Stevens, Leala Cobain, Florence Taylor, Virginia Ficker, Tillie Naylor, Virginia Ficker, Evelyn Smith, Betty Lewis, Jack Jenkins, Howard Wiggin and Mae Fendley.

### Miniature golf for children Saturday

The fourth annual miniature golf tournament, cosponsored by the Granite City Jaycees and Funland Miniature Golf, 3820 Pontiac Road, will take place from 10 a.m. until 3 p.m. Saturday at Funland.

Young people between the ages of 6 and 16 years are eligible to participate, according to Bill Weible, Jaycee project chairman.

There is no entry fee and playing time for 36 holes of golf is absolutely free, Weible said. Prospective competitors must register in advance at Funland, where forms now are available.

Each group of participants will be accompanied by a Jaycee escort, who also will keep score, the chairman added.

Five age groups will compete separately in both the girls' and boys' divisions, with first, second and third place trophies to be awarded at each age level.

Age divisions are 6-7, 8-9, 10-11, 12-13, and 14-16.

Further information about the contest may be obtained by calling Weible, at 877-6421, prior to the contest date.

ST. LOUIS DAYLILY SHOW SET SATURDAY

The latest varieties of daylilies will be on exhibition from 1 to 6 p.m. Saturday, June 26, at Northwest Plaza Shopping Center.

The show is sponsored by the St. Louis Daylily Society according to Mrs. Agnes Miller of Granite City, a member of the organization.

## Varied menu at festival

"Meeting anyone's needs for a meal" might be a theme for the Food Service portion of the Mississippi River Festival, held on the campus of Southern Illinois University at Edwardsville.

With available menu items ranging from hamburgers and hot dogs to veal cordon bleu, "we either have, or can develop, anything anyone wants," said MFP Food Service Manager Eleanor Alexander.

Standard offerings for those interested in making an MFP outing a picnic evening include the usual snack foods and box lunches, as well as special picnic baskets, buffet dinners, table service meals, and hors d'oeuvres for parties. But that's just part of the fun of dining out under the stars, Mrs. Alexander said.

"With a week or so notice, we can develop virtually anything," she said, "whether it's a good place for groups to come and have the meal of their choice while enjoying a performance."

The picnic baskets, which cost about \$6, are available on a first-come, first-notice basis.

"The MFP place a small deposit for baskets, which can be either large enough for a meal for one or two, then find a comfortable spot for the person on the 18 acres of sculptured lawn available at the MFP site."

The table service meals, designed for a minimum of 15 guests, include ham, roast beef, Kielbasa, ribs, chafing dish and more, with tea or coffee, and can be held under a 30-by-30-foot tent at the top of the sloping natural amphitheater that contains the festival site.

The buffet dinner, designed for a minimum of 20 guests, includes roast round of beef or turkey breast or hickory smoked ham, wild salmon, meatballs, corn cobblers, French green beans, and much more, with a wide variety of available options for the separate courses. This meal,

too, can be held under the tent or in the open. The tent is available, of course, on a first-come, first-served basis.

The hors d'oeuvres party has chicken drummettes, fresh strawberries, sharp cheese cubes, cold canapes, mixed

For those not coming in a

large group, the picnic basket

is the MFP's really enjoy-

able meal.

The box lunches

include a chicken box, for \$2.15,

and one of four other choices,

including fish, ribeye steak,

pork steak, and roast beef.

ENTER VACANT HOUSES

Two vacant houses on Wilson Park Lane were entered and all cabinets were stolen, authorities discovered at 2 p.m. Thursday. All of the wall cabinets, valued at a total of \$125, were stolen from 206 Wilson Park Lane and two cabinets worth a total of \$90 were stolen from 206 Wilson Park Lane.

Negligence was charged

## State Demos to name Education aids all—Kochman

John P. Touhy, chairman of the Democratic State Central Committee, has announced that the committee will select nine Illinois Democrats to be seated on the Democratic National Committee. The present members expire at the end of the Democratic National Convention.

The nine will be chosen at a meeting of the State Central Committee Wednesday, July 21, according to procedures adopted today.

"We invite all Democrats in Illinois to submit their names for selection to the Democratic National Committee," Touhy stated. "Women or men, up-state or down, rich or poor, young or old, whatever color or religion or national background they may have, we want all to participate."

"All a person has to do is write me: John P. Touhy, 534 South Second Street, Springfield, 62701, telling the person's name and address that the person is an Illinois resident, a registered voter, a

Democrat, and a candidate to fill a seat on the Democratic National Committee." Touhy explained. "All such letters must be delivered or postmarked by July 7, 1976," he continued.

Anybody desiring further information may contact Chairman Touhy at the address given above.

### Terrell honored

Billy H. Terrell, general agent in Granite City for the Franklin Life Insurance Co., Springfield, has been named to membership in the Franklin's Board of Directors.

Terrell's qualification for the national honor was based on outstanding personal sales for the month which provided his clients with more than \$100,000 in new life insurance protection. Presentation of the \$100,000 Plus Club award will be made by Franklin President William J. Alley, CLU.

The Franklin is one of the leading life and health insurance institutions with assets in excess of \$1.4 Billion and over \$10 billion of insurance in force.

Marine Private First Class Boyd H. McGahey, son of Mr. and Mrs. Boyd H. McGahey, 2201 Terminal, has been meritiously promoted to his present rank upon graduation from recruit training at the Marine Corps Recruit Depot, San Diego, Calif.

He received the early promotion for his superior performance during all phases of the 11-week recruit training, the emphasis physical conditioning, self-discipline and teamwork. A former student of Cahokia High School, he joined the Marine Corps in January 1976.

## Art exhibit to open Thursday

an exhibition of art sponsored by the Town and Country Co-operative Extension Service of the University of Illinois will be shown at the St. Clair Square, Fairview Heights, Thursday through Saturday.

Participants will represent Clinton, Madison, Randolph, Bond and Macoupin counties. Prizes will be awarded and the winning artists will be eligible for cash competition.

The competitive finals will be displayed at the University of Illinois at Champaign-Urbana. The 50 works will be displayed throughout the mall during the three-day exhibition.

The show will be presented free of charge at St. Clair Square, at the intersection of Illinois 64 and 159.

## Late registration this week at SIUE

It is not too late to register for summer classes at Southern Illinois University at Edwardsville, according to Robert Brink, director of admissions and records at the University.

Registration for summer quarter classes has been extended for the benefit of individuals who may have been out of town on regular registration days.

Late registration will be held in Room 1308 of the John S. Rendleman Building from 8:30 a.m. until 7 p.m. today, and

### SIUE study of rape causes

The National Institute of Mental Health will sponsor research studies dealing with all phases of rape prevention according to the Office of Research and Projects at Southern Illinois University at Edwardsville.

According to the project outline, the study will include studies relating to the causes of rape, laws that deal with it, treatment of its victims, and the effectiveness of existing programs to prevent and control rape.

Research and demonstration projects to plan, develop, implement, and evaluate methods in treatment, counseling programs for victims of rape and their families, as well as efforts to rehabilitate offenders will be considered for support.

Additional information concerning the project is available from the SIUE Office of Research and Projects.

Undergraduates who are in doubt about their status, may call 1-692-2722. Graduates should call 1-692-3101.

To be considered for admission to the University, a person must be a graduate of an accredited high school or must have passed General Educational Development Test (GED).

A graduate of a non-accredited high school may be admitted by the director of admissions and records through examination of individuals who wish to enroll in classes for their own enrichment, may do so as a non-degree student. Credits earned as a non-degree student are not applicable toward a graduate degree.

Additional information on admission or registration procedures may be obtained by contacting the admissions and records office at SIUE.

**Shower honors  
Mrs. Bellman**

A miscellaneous wedding shower was given last week honoring Mrs. Jean Bellman by Mrs. Beverly Lewis at her home, 3126 Nansenki Road, last week.

The hostess, who is a sister of the groom, arranged the gifts on a table centered with bride and groom figurines.

The bride and the grooms and their parents, Mrs. Madeline Carolyn Bellman, Nana Louis, Irene Louis and the honoree.

Other guests present were Betty Bellman, Debbie Ray, Jan Mercer, Marge Wade, Pauline Mitchell and Ann Parush.

**CUB SCOUTS TOURS  
BASKIN-ROBBINS**

A tour of Baskin-Robbins was made by cub scouts of Pack 8 accompanied by leaders, Mrs. June Donald, Mrs. Mary Anne Rammer and Mrs. Pat Foote, last week.

The owners, Mr. and Mrs. Robert Jones, explained where the ice cream was made and how various flavors, creams, sundae's were prepared. Each boy made a clown cone at the conclusion of the demonstration.

Others attending were Donald Carter, Jimmy Ellis, Mike Grizzard, Chris Landreth, Harold Pulley, Ronald Dunbar, Tim Moran, Stacy Gassett, Danny Hull, Patrick Ramsey, a Webley.

**Service of Consecration**

A service of consecration for the newly acquired church and mission house of the Reorganized Church of Jesus Christ of Latter Day Saints, 620 N. Main Street, Granite City, will be conducted Sunday, June 27, at 2 p.m. with the Rev. Duane E. Couey of Independence, Mo., as guest speaker, according to the Rev. Sid F. Pfeifer.

Previously known as the Lincoln Place Mission, the building was constructed in 1950 and used in community activities by the Southern Baptist Convention.

"We hope to also make the building and grounds a center for providing ministry in the immediate area," Rev. Faulkner said.

Rev. Couey is a member of the First Presidency of the RLDS Church which has its headquarters in Independence, Mo. He served in the mission fields in the Far East, Philippines, Latin America and Africa.

Participating in the ceremony Sunday will be the Rev. Sebe S.

**ANNOUNCE BIRTH OF  
TWIN DAUGHTERS**

Mr. and Mrs. Patrick Martin, 2529 Adams St., are announcing the birth of twin daughters on June 16 at Jewish Hospital, St. Louis.

The new arrivals have been named Danielle Rae who weighed four pounds, 15 1/2 ounces and Dana Gay, five pounds, 12 ounces.

Mr. and Mrs. Martin also have a 2-year-old son, Shawn Martin.

Grandparents are Mr. and Mrs. Clovis Martin, Mr. and Mrs. Ted Koeckel and David Hollis all of Granite City.

REV. DUANE COUEY

Morgan, president of the St. Louis District of the RLDS Church and his counselors, the Rev. Roland Stratman and Dr. A. D. McElroy.

Giving a brief history of the Granite City Mission will be Bishop Ted Medler of St. Louis.

Participating in the ceremony Sunday will be the Rev. Sebe S.

Mrs. Art McGowan, newly installed president of the Amvets Auxiliary, St. Louis, appointed Mrs. Glenda Hockensmith planning chairman for the unit's float in the community's Bicentennial parade July 3.

The appointment was announced at last week's regular meeting of auxiliary members at the Post Home, 5100 Lakeview Drive, Named to assist Mrs. Brockman were Mrs. Jackie Petras, Mrs. Betty Wilkins and Mrs. Charleen Sollers.

Mr. and Mrs. Marge Smith, worker at the Amvets shelter, Mrs. Varner explained the current location no longer will be available after 90 days. A collection was taken during the meeting with the donations to be given the humane group.

Mrs. Ann Tucker, hospital chairman, reported having accumulated a total of 305 hours of volunteer service at St. Elizabeth Hospital.

The appointment of Mrs. Petras as VAVS representative to John Cochran and Jefferson Barracks veterans' hospitals by Mrs. Lois McCann, Illinois Amvets Auxiliary president, was announced.

Plans were made to purchase electric shavers for patients at John Cochran Hospital, St. Louis, and game and shoe shine kits for Jefferson Barracks' patients. Monthly visits to the hospitals also were proposed.

As VAVS representatives, Mrs. Petras will be responsible for recruiting volunteers for hospital work and arranging service programs for the hospitalized veterans.

Mrs. Petras and Mrs. Tucker attended the graduation Day at John Cochran Hospital June 11, when the former's appointment became official.

Refreshments were served after the meeting by Mrs. Barbara Sander and Mrs. Smith. The white elephant prize was received by Mrs. Sanders.

**Amvets Auxiliary to enter float**

Americanism chairman led the pledge of allegiance and also invited members to fly the flag on Independence Day.

Attendance at Memorial Day and Parade of Flags ceremonies were reported.

Mrs. Lorena Varner, liaison chairman, reported the Illinois Association for Protection of Animals (APA) urgently needs funds to help construct a new shelter facility for the animals left in its care.

Varner, a worker at the Amvets shelter, Mrs. Varner explained the current location no longer will be available after 90 days. A collection was taken during the meeting with the donations to be given the humane group.

Mrs. Ann Tucker, hospital chairman, reported having accumulated a total of 305 hours of volunteer service at St. Elizabeth Hospital.

The appointment of Mrs. Petras as VAVS representative to John Cochran and Jefferson Barracks veterans' hospitals by Mrs. Lois McCann, Illinois Amvets Auxiliary president, was announced.

Plans were made to purchase electric shavers for patients at John Cochran Hospital, St. Louis, and game and shoe shine kits for Jefferson Barracks' patients. Monthly visits to the hospitals also were proposed.

As VAVS representatives, Mrs. Petras will be responsible for recruiting volunteers for hospital work and arranging service programs for the hospitalized veterans.

Mrs. Petras and Mrs. Tucker attended the graduation Day at John Cochran Hospital June 11, when the former's appointment became official.

Refreshments were served after the meeting by Mrs. Barbara Sander and Mrs. Smith. The white elephant prize was received by Mrs. Sanders.

**Eight and Forty to attend convention**

Plans to attend the American Legion Auxiliary and Eight and Forty convention in Chicago in July were finalized at a monthly session of Madison County Salons 53, Eight and Forty held at the VFW Hall, Madison.

Chapeau Ira Campbell was in charge of the meeting attended by 17 members. Reports were given by committee chairmen.

Arrangements were made to make a float in the parade at the home of the Chapeau in July, with special guests from the Green-Calhoun Salons.

Members present included those from the Alton, Edwardsville, Hillside, Granite City, Venice, Madison and Granite City area.

Hostesses for the evening were Norma Hillmer, Frances Cowley and Kathryn Fellers.

**Mrs. Grace Range hosts club card**

Mrs. Grace Range entertained members of the Eight and Forty Club last week at her home, 2344 Lynch Ave. A dessert course was served to members and a guest, Mrs. Marie Perry.

Exciting at cards and racing prizes were Mrs. Leona Parente, Mrs. Grace Hennrich, Mrs. Margaret Richardson and the hostess.

Others present were Mesdames Iris Fisher, Abby Long, Linda and Vera Carey.

Mrs. Richardson will host the club in August.

**Sr. Lorraine Crimmins marks golden jubilee**

From the local congregation, Rev. Faulkner will preside. Having part in the service will be Elders George Hopkins and Ronald Rubottom, Priest Daniel Welborn, and Dr. Barry Murphy.

The Granite City Mission of the RLDS Church was organized in 1960 with Dr. Raymond E. Troyer as the pastor. He served until 1970 when Dr. Murphy succeeded him.

The Rev. Faulkner has been pastoring since May this year. Facilities for church services were rented in the YMCA until the present property was acquired.

The church also owns property for another building site on Maryville Road when the new highway is constructed.

Rev. Faulkner has extended an invitation "to one and all to come with us to the float and the building aside for the work of doing God's will."

strengthening, enlightening and encouraging people to live righteously and to be about their Father's business."

In Venice, she also graduated from St. Elizabeth's Academy and Fontbonne College in St. Louis.

Upon entering the Order so years ago, the sister has served as a teacher and been involved in social work.

As part of her jubilee year observance, Sister Lorraine will leave shortly for a vacation at Our Lady of Lourdes in France.

She is the sister of Mrs. Margaret Krusec of Madison, Sister M. Maureen Crimmins of St. Joseph's Hospital, Highland, and Robert Crimmins of Tooele, Utah.

**Navy Mothers plan float in July 3 parade**

Decorating a patriotic float for the community's Bicentennial parade July 3 was discussed at the Quad-City Navy Mothers Unit 854 social meeting held Thursday evening at the VFW Hall.

Mrs. Edna Miller, commander, presided and Mrs. Margaret Miles reviewed the parade float plans. She also gave the welfare report for the final six months of the club.

Discussed also were details of a rummage sale, scheduled July 21 at Schermer Bros. Supermarket, 12th Street and Madison Avenue, Madison.

The regular business session was set for July 1.

During the social hour, the mystery package was won by Mrs. Vicki Johnson, and Mrs. Truman Shultz. Mrs. and Mrs. Buckley Shultz and son Eric, Amy Werner, Chris Platt, Dennis Mack, Joan Platt, John Platt, Mrs. and Mrs. Clarence Werner, Mr. and Mrs. Charles C. Shelton, Mrs. Marion Korak.

Other out-of-town guests were Mr. and Mrs. Norman Livingston, Mr. and Mrs. Gary Livingston, Mr. and Mrs. John all of Highland, Ill., Mr. and Mrs. Robert Sheldon of Eldon, Mo., Mr. and Mrs. Wade Shelton and Mrs. Edna Shelton of Joplin, Mo., Mr. and Mrs. Herman and Mr. and Mrs. Herbert Burnett of Iberia, Mo.

**Mrs. Kittell is  
Jolly 8 hostess**

Mrs. Virginia Kittell was honored to be the Jolly 8 Canasta Club's hostess for her home Thursday evening.

Excelling at cards and winning prizes were Mrs. Pam Israel, Mrs. Clara Winter, Mrs. Lucille Broyden and Mrs. Sue Edna Thurber.

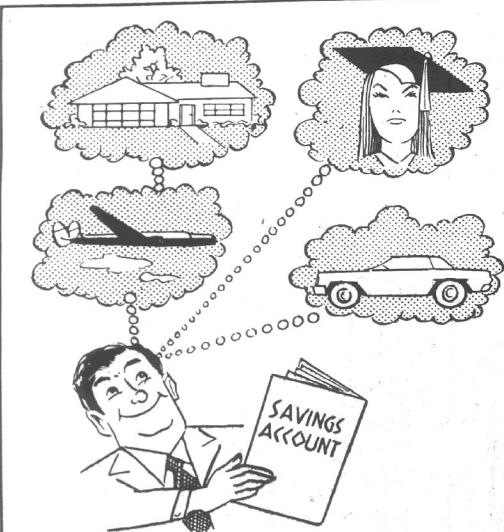

Mrs. Charles Cooper and Mrs. Betty Tellor, Mrs. Miller and Mrs. Jean Tellor.

Hostesses for the meeting were Mrs. Norma Darnell, Mrs. Gladys Markovich and Mrs. Edna Thurber.

**Frank Merz, 72,  
rites Saturday**

Funeral services were held Saturday at the St. Saviour Lutheran Church, Toledo, Ohio, for Frank Merz, 72, a retired foreman at A. O. Smith Corp.'s Granite City plant.

Mr. Merz died June 16 at Flower Hospital, Sylvania, Ohio.

Before retiring from the local plant in 1965, Mr. Merz was employed there for 17 years as a general foreman. He is a former resident of Douglas Lake, Elkhorn, Mich., and had been living in Temperance, Mich.

Mr. Merz was born in Lenawee County, Mich. He was a member of the Edwardsville Methodist Lodge and Our Saviour Lutheran Church.

He is survived by his wife, Mrs. Viola Merz; two sons, Eugene and Alvin Merz, both of Temperance; a son, Michael Merz; a daughter, Mrs. James Lorraine Merz; a grandfather, three brothers, a sister and five grandchildren.

Burial was in Toledo Memorial Park Cemetery.

**Miss Clayborne  
dies at home**

Miss Daisy Clayborne, 68, of 1313 Logan Ave., Venice, was found dead without signs of life in the Venice police said and was pronounced dead by Bob Thomas, Madison County deputy coroner, at 11:41 p.m. Saturday.

A neighbor who had not seen Miss Clayborne since Thursday asked authorities to investigate. They found the house locked and obtained a key from the landlord to enter the home.

Miss Clayborne had resided in the area since the 1960s and was a member of a Baptist Church in St. Louis.

She is survived by two sisters. Funeral arrangements are pending at an East St. Louis funeral home.

**CC boy held for  
robbing newsboy**

A 14-year-old Granite City boy has been taken to the Madison County Juvenile Detention Home and faces juvenile court action for allegedly robbing a newsboy, 10, on Newbern at Newbern Avenue and State Street at 8:45 p.m. Saturday.

The newsboy, Tim Murphy, 11, of 2114 Delmar Ave., told authorities he was converging with a boy when a boy on a bicycle approached him displayed a knife and demanded money.

Murphy gave the older boy about \$1 and the thief, saying he would return again next week and rob him again.

**Area residents  
receive degrees**

A total of 134 graduating seniors of the St. Louis College of Pharmacy received the degree of Bachelor of Science in Pharmacy at the 113th commencement exercises of the college.

College President Charles C. Rabe conferred the degrees on the students who completed the five-year program. Dr. John E. Entry was discovered to have gained by crawling through a rear window.

Among those graduating were Jeffrey James Homan, Robert Paul Paoli, 2645 Benton St., was stolen from his home between 10 p.m. Saturday and 7:30 p.m. Sunday.

Edge wood Ave.

SMALL CAR STOLEN

The 1976 gold Volkswagen of Robert Paul Paoli, 2645 Benton St., was stolen from his home between 10 p.m. Saturday and 7:30 p.m. Sunday.

## 4 weekend wins by Post 113

Tri-City American Legion Post 113 won four of five baseball games during the weekend, including three on the road at Blytheville, Ark.

Coached by Conrad "Babe" Champion, the Legionsmen defeated Edwardsville three-4-3 Friday, blanked Marion of Arkansas 3-0 Saturday morning, and then defeated Blytheville 4-1 Saturday afternoon.

On Sunday, Post 113 split a twinbill with Blytheville, winning 5-4 and then losing 10-4.

The Edwardsville contest was a District 22 Legion League game, with winning pitcher Paul Evans fanning nine opposing batters.

Post 113 scored three runs in the second inning when John Pritchard singled, Mike Clark drew a walk, Randy Smith reached on an error and Evans tripled in three runners. Tri-City scored again in the third

hits by Jeff Scarborough, Paul Marshall and Keith Champion.

In Saturday's first of four non-league contests at Blytheville, hurlers Randy Lyerla and Jim Goodyear combined their talents on the mound for a no-hitter while combining to shut out 12 batters between them.

Lyerla fanned 11 in the first five innings, and Goodyear one in relief.

Tri-City scored once in the first and twice in the third, both sides being hit by Tom Heinrich.

Kirk Champion, Keith Champion and Kirk Smith.

Kirk Champion got the win in beating the Arkansas squad 4-1, as the local team had 10 runs in the first and two more in the seventh. The scoring included walks to Larry Hagey and John Krekovich, two errors, a fielder's choice and hits by Pritchard, Keith Champion, Scarborough and Prichard.

The Tri-City Legion plays at Alton at 6 p.m. tomorrow, and then hosts Highland at Wilson Park at 6 p.m. Wednesday and travels to O'Fallon on Thursday for a 6 p.m. contest.

Five runs crossed the plate in the second inning of Sunday's initial contest on hits by Mushill, Joe Parente, Pritchard and Jim Cedar.

Following a four-run scoring spree in the seventh on hits by Pritchard, in right field, was credited with preventing a tied game. He retired the side in the seventh with a timely throw to home plate.

He then collected 14 hits in the final contest, headed by two singles and a double by Kirk Champion, but still lost to Blytheville.

Collecting two hits each were Keith Champion, Lyerla, Heinrich, Krekovich and John Lakin.

The Tri-City Legion plays at Alton at 6 p.m. tomorrow, and then hosts Highland at Wilson Park at 6 p.m. Wednesday and travels to O'Fallon on Thursday for a 6 p.m. contest.

## Wallace win streaks continue at speedway

Mike Wallace of Arnold, Mo., charged into the lead at the drop of the green flag at Tri-City Speedway Saturday night, leading all the way in repeating as winner of the 50-lap sportsman division mid-season championship race.

The defending track titlist held off repeat threats by St. Louis' Jim Krohn, who placed second.

Three Granite City drivers rounded out the next three finishing positions—Dean Arne, Chuck Milam and Len Gibson.

Earlier, Wallace successfully captured his sixth straight late model race at the speedway.

Tonight's racing at 7:30 p.m. will feature the fifth lap after leaders Ralph Knox and C. C. Corbin tangled coming out of the corner, enabling Wallace to slip

under them and pass.

Corbin placed second, Bill Myrander and Kenny Schrader fourth.

Other event winners were Jerry Sifford, heat race; Schrader, heat race, and Corbin, heat and handicaps race.

The defending track titlist held off repeat threats by St. Louis' Jim Krohn, who placed second.

Three Granite City drivers rounded out the next three finishing positions—Dean Arne, Chuck Milam and Len Gibson.

Earlier, Wallace successfully captured his sixth straight late model race at the speedway.

Tonight's racing at 7:30 p.m. will feature the fifth lap after leaders Ralph Knox and C. C. Corbin tangled coming out of the corner, enabling Wallace to slip

## Close games as 435 divides

Glen Carbon American Legion Post 435, now has a 7-3 record in District 20 Baseball League competition overall after splitting four league contests.

On Thursday night, Post 435 divided a twi-night doubleheader at Collinsville dropping the opener 4-3 in 10 innings, then utilizing the pitching of Brian Sikes and the hitting of Tony Stajduhar to take the nightcap 6-5.

On Friday, Glen Carbon could not get its offense going and dropped a 7-4 decision at Alton.

In beating Fairview Heights yesterday, Joe Gulash tripled in

the first and scored on a sacrifice fly by Richard Schmidt before the visitors went ahead 2-1 in the fifth.

Walks to Richard Schmidt and Brian Sikes in the sixth started Glen Carbon's winning rally, which was followed by Failon sent both runners home.

Post 435 is at home against O'Fallon at 6 p.m. tomorrow with either Leo Pelek or Bill Dickson on the mound.

On Saturday, Glen Carbon travels to Belleville at 6 p.m. to take on the league leader, with either Stajduhar or Davis doing the hurling.

## Key bouts for three would-be Olympics wrestlers from GC

Three Granite City wrestlers are making bids today for starting positions on U.S. wrestling teams which will compete during the 1976 Summer Olympics in Montreal, Canada, next month.

Jan Gitcho, a World Games champion, is at Brookport, N.Y., where he takes on Mike Crouse in freestyle bouts.

Gitcho must win two out of three bouts today to advance

to final rounds tomorrow against Pennsylvania's Jim Carr.

The Granite Cityan, if victorious in today's bouts, would be expected to beat Carr in two straight bouts to make the Olympic team at 125 pounds.

Carr was the matman who handed Gitcho his only loss at Cleveland, Ohio, earlier this year when Gitcho won the

World Games Cup championship.

Brothers Kris and Keith Weller, GOHS North students, are participating in Greco-Roman wrestling at Northern Illinois University, DeKalb, where victories could send them to final competition tomorrow at New York. Kris Whelan is wrestling at 105 pounds and Keith at 114.

## Braves, Belleville split 2

The Granite City Braves of the Central Illinois Traveling Baseball League split a doubleheader here Sunday, winning the first game 6-4 over Alton.

The second game 9-8.

The action Sunday gave the Braves a league record of four wins and two losses.

The Braves won a fourth and fifth game in the first game and fell behind in the fifth when Belleville scored two runs. The Braves then fought back for their final three runs in the sixth to win.

The deciding runs were scored when Brian Meehan hit a home run with Dan Fechte and Tony Elliot on base.

The first three runs were scored when Danny Schaus singled, Fechte doubled, Brian Meehan singled and Dave Klarchik tripled home Fechte and Meehan.

Tom Kirksay, who came in to relieve Tom Mahl in the fifth inning gained the win.

In the second game it was 7-1 in favor of the Braves until the top of the fifth inning, when on five walks, two hits and three

Braves errors, Belleville scored twice to win the bottom of the sixth.

Kirksay again pitched in relief, for Victor Griffin, and took the loss.

Dan Manoogian and Mehan tripled for the Braves. Fechte and Eddie and Mahl all garnered hits.

On Sunday, June 27, the Braves will travel to play the Alton Junior Legion team in a doubleheader beginning at 1:15 p.m. on the Lewis and Clark diamond.

**HURT IN CARLINVILLE**  
John Hartman, 29, of 300 Madison Ave., was injured in a car accident Saturday night. He was brought to St. Elizabeth Hospital after emergency treatment at a Carlinville hospital. He said his car struck a deer in the roadway. He was admitted to the hospital here with possible head injuries.

## Mercer drops to tie for Inter-City lead; Thomas wins

A three-way tie for first place in Illinois Inter-City Baseball League competition developed again yesterday when Mercer dropped both ends of a twinbill

at Highland-Pierron (8-7 and 9-8), and the East Alton Vans won both of their games to move into sole possession of Fairfax (12-6 and 5-4).

Merter, Vans and Highland-Pierron each have 9-5 records.

Thomas Morrissey got into the win column for the first time this season with a doubleheader split here with Panama, the Granite Cityans losing 5-1 and then winning 6-5.

Jim Rains doubled in the seventh inning for Thomas' win.

Mercer yesterday had Bob Scott, Bob Hughes and Jim Greenwald blasting two home runs each but failed to overcome the Highland squad as it won 5-4.

In the 9-8 second contest, Pat Petersen and Greenwald provided lone homers but the powerful Mercer offense fell just short.

**VAN FIRE TODAY**

Granite City firemen were called to First Bank at 10:15 a.m. today to extinguish a fire in the van of Fred Bilyeu, 1953 Maple St., caused by a carburetor backfire. There was only minor damage and firemen were on the scene 10 minutes.

## Colonial Bank . . . The Best of Two Worlds

The Colonial Bank of Granite City will bring you the best of two worlds. We'll offer modern facilities and up-to-date service, paired with good old-fashioned colonial warmth and security.

Colonial Bank will be open six days a week for your banking convenience, with both drive-in and lobby facilities. And better yet, we'll be just around the corner. At Colonial Bank, people come first.

**New IHSA rules may benefit teams here**

A special referendum this month by the Illinois High School Association's board of directors resulted in a new constitution and by law governing interscholastic activities have been completely reviewed.

The only the second time in the 78-year history of the IHSA, the rules and regulations governing interscholastic activities have been completely reviewed. The needs of the students as well as the schools with the tools to build a modern, thriving statewide interscholastic activity program.

"When the senior student transfers to another school or district at the beginning of his senior year he is eligible to compete immediately in sports at his new school, but if a student transfers after the start of the new term, he has to wait 30 days," Whittaker said.

"When the transfer is in 1989 and the first constitution and by-laws were formally adopted in 1915, they were redefined for the first time that non-athletic activities were placed under the jurisdiction of the IHSA," Whittaker said.

There are three significant changes in the provisions for member schools including allowing a senior to continue at the same school for his entire high school career and be eligible for athletics for that year even though he transfers to another school district.

Whittaker, GCHS North wrestling coach, views the

change as beneficial to various sports programs here.

Whittaker cited an example where if the new revision had been in effect last year North High's football, track and band programs would have benefited when James Woodward transferred to High School.

"He had the potential to be an all-state lineman in football and also was outstanding in field events such as discus throwing."

"When a senior student transfers to another school or district at the beginning of his senior year he is eligible to compete immediately in sports at his new school, but if a student transfers after the start of the new term, he has to wait 30 days," Whittaker said.

of competition, and to maintain proper control at all interscholastic activities.

In addition, the board of directors has the authority to penalize a school if any of its official representatives (players, coaches, etc.) or spectators are found to be in violation.

## Blood 'fingerprinting' may aid crime fighters

"Fingerprinting" of human bloodstains offers a potential new resource for crime fighters, although it still has a long way to go before it is a proven and accepted method of identifying people.

Using crossed electrophoresis (SEID), a new method for analyzing bloodstains, Drs. Robert Sweet and James W. Elkins of Wichita State University, have had reliable results in individualizing stains. They report their findings in the current issue of *Science*, the magazine of the American Association for the Advancement of Science (AAAS).

In a study done with 10 subjects (five males and five

females) on 10 different occasions, the authors found a close similarity of patterns in bloodstains from the same source, but gross differences among subject patterns. In fact, each of the 10 people tested could be distinguished from all the others by this method.

The authors caution that the same reliability they found might not hold true for the general population. However, they emphasize that their criterion for individuality was more stringent than what is usually used, and that the usual range of subjects was relatively homogeneous in age, race, and state of health.

They conclude that these two factors indicate that CEID can achieve an even greater level of discrimination of bloodstains than they observed.

The greatest difference Sweet and Elkins found in bloodstains using crossed electrophoresis was between females and males. Since the best currently available procedure used to distinguish female from male bloodstains is reliable in only about 60 percent of the cases, the authors urge that this method be seriously considered as a way to make the

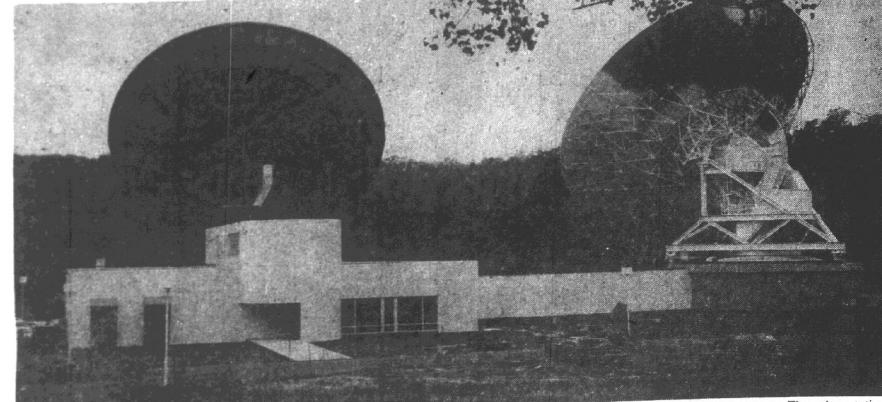

task easier.

CEID is considerably more successful in differentiating among bloodstains from females than among those from males. This would suggest, according to the authors, that it would be most commonly desired distinction for forensic practice, that of distinguishing male from male, will perhaps be the most difficult to make.

Sarah Schroeder, 90, of 1927a Madison Ave., a former librarian for many years, was seriously injured when she was struck by the pickup truck of George Bodie, 1747 Clinton St., at Niedringhaus Avenue, near Hanover, Ill., at 2:30 p.m. Thursday.

Bodie said he was turning left from State Street onto Niedringhaus Avenue when he saw the woman walking across and both stopped. After a short pause, both resumed moving, each thinking the other was going to wait, and they collided. Sarah Schroeder suffered a fracture to her right shoulder, one above her left eyebrow and an abrasion to her left shoulder. She was treated here and was transferred to Firmin Desloge Hospital, St. Louis.

PHONE CALLS BY AIR. Some long distance calls within United States will travel over satellite when AT&T Long Lines station near Hanover, Ill., begins operation in July. The site, one of seven in the U.S., is

part of a joint AT&T-GTE domestic satellite system. The other stations are in California, Florida, Georgia, Hawaii and Pennsylvania.

## Pedestrian, 90, seriously hurt

## 'Earth station' to bounce phone calls off satellite

Preparations are nearly complete on an American Telephone and Telegraph Co. earth station in Hanover, Ill., which will bounce phone calls off a "bird" which was launched in May.

The earth station and the "bird" — a satellite — are part of the American Telephone and Telegraph domestic satellite communications system which is scheduled to go into service in July.

The system, which will ultimately be able to handle 20 simultaneous conversations, will provide radio transmission facilities for communications services within the contiguous 48 states and Hawaii. It will be available to serving Alaska and Puerto Rico through earth stations operated by other carriers.

Located on a 160-acre tract near Galena, the Hanover station will be one of four operated by AT&T. Three other stations will be operated by GTE Satellite, a subsidiary of General Telephone & Electronics Corp.

"We're putting the finishing touches on now and conducting tests," according to AT&T's Les Dockstader, operations supervisor at the station. "Emergency will be ready to go when the system goes into operation."

Dockstader represents one of the Bell System companies in AT&T Long Lines involved in the development of the system. Long Lines, Western Electric Co. and Bell Telephone Laboratories combined to set specifications for equipment.

In addition, the Bell System took coordinated engineering, testing and supplier activity necessary to develop the AT&T earth station system and worked with engineers for the GTE group.

On May 13, the first of three GTE satellites, manufactured by the Hughes Aircraft Co., was launched from Cape Canaveral, Fla., by the National Aeronautics and Space Administration.

The second satellite, which will serve as a back-up, is scheduled for launch in late July. The third will be launched in October.

Initially, the system will be used for regular long-distance calls, including Wide Area Telecommunications Service

communications and installed by Western Electric.

### State approval of overpass on 19th is a big step forward

Word that the Illinois Transportation Department has earmarked \$900,000 for planning and initial construction work on an overpass between West Granite City and the Downtown business district is highly encouraging following immediately after the opening of the Broadway under pass in Venice.

For too many years, there have been crossing-related traffic accidents and with a tragic toll of deaths and injuries.

An overpass at 19th Street will provide a connection link between the central portion of the Quad-Cities and the Great River Road (Federal Aid Route 151), just

as Broadway connects the southern area and Interstate 270 links the northern portion.

It is noteworthy that rapid progress is being made on extending Route 151 south from Niedringhaus Avenue to Venice, including spanning the Chicago Avenue tracks at the Granite City Army installation.

The \$900,000 for the first phase is regarded as constituting formal state approval of the West Granite overpass plan. Funds from Federal Aid to Urban Systems also will help in financing the \$4,900,000 structure.

### Casual remarks during election campaign can be harmful

Press-Record Washington Bureau — The mainstay of a national political campaign has often forced Presidential candidates to think twice about what they said the day before.

Certain slips of the tongue are understandable and sometimes humorous. However, in the case of Ronald Reagan's comments about a possible use of military forces in Rhodesia there is a point to be made about offhand remarks on foreign policy issues during the hectic days of a campaign.

Reagan made a clear explanation of his response to a question regarding military intervention in Rhodesia the day after the question was posed. His clarification came after one headline which said "Reagan would send GIs to avert Rhodesian War."

However, Mr. Reagan said he only intended to say that the United States and

Britain might be involved with other nations in United Nations mediation efforts during Rhodesia's transition to majority rule.

The clarification statement was a reasonable one, but it illustrates that international issues are particularly sensitive during a political year.

Candidates skate on the thinness of ice, because potential American Presidents are watched closely by foreign leaders.

Foreign policy ranks high in the responsibilities of a President because of the United States' worldwide leadership. Americans are sensitive to possible involvement of American troops in foreign entanglements. Political candidates seeking votes are often the control of that military capability is centered should understand that responsibility — and measure their words carefully.

### Auto spare tires may be in danger of becoming extinct

Press-Record Washington Bureau — The spare tire on automobiles could be as extinct as the buggy whip by 1980.

That is the prediction of a number of automobile experts who estimate that a spare tire of spare tire and wheel and tools most motorists now drag along in their cars could be eliminated nearly a million gallons of gasoline could be saved daily.

Collapsed spares that can self-inflate by a small pressurized air container for temporary use have been available for several years.

But the real race is on among the major tire makers, such as Uniroyal, GoodYear, Goodyear, Firestone and General Tire to perfect the "ultimate tire" which will require no back-up replacement in the event of a flat.

The ultimate tire, known as the "runflat," will enable a motorist to drive his car, in the event of a flat, at a reasonable speed over a stated distance to a service station for the necessary repairs.

"Elimination of the spare is within reach of the industry, and not far off," according to W. Herbert Schmaier, president of Uniroyal, Inc.

Apart from the psychological crutch provided by the spare, there is little to be said in its favor, he says, and predicts that "when motorists feel comfortable driving on a flat tire to a service station, they will overcome any emotional barrier to riding without a spare."

### Prison count up beyond forecast

SPRINGFIELD — Prison populations in Illinois have exceeded the Corrections Department's best—or worst—expectations.

Correction Director Allyn R. Siefert had warned that if the state's adult prisoners might reach 8,600 by the end of June, instead, the adult in-

stitutional population hit 8,756.

At the latest count, Stateville had 2,533, with a current capacity of 2,900, and Joliet has 2,010 inmates, while the capacity of its newest section, Joliet's, is rated at 1,200.

In early June last year there were 7,949 adult in-

mates in the state's institutions and the upward trend had been steady since.

Siefert, who recently said he felt there had been a "significant decrease in tension and violence" in the institutions despite the soaring inmate population, still believes that is true.

"A couple of hundred increases isn't anything significant," he says. "There is always a certain amount of trouble, like incidents like the problem at Menard earlier. Those are routine kinds of things."

An estimated 80 to 100 inmates caused disturbance at Menard, apparently triggered by conflicts between street gangs which have retained more cohesive identity in the prisons than they have elsewhere on the streets where they were organized. Several inmates received minor injuries during the fracas which resulted in the institution being placed on lockdown. That is not being eased, Siefert says, as a shake-down of the facility continues.

Rock is the only one mentioned who is in a leadership position and is paid extra (Rock gets \$6,000 per year, the \$20,000 base pay) because they are responsible for the details of the legislative operation.

By contrast, the House of Representatives does not pay its members for attending plenary sessions.

A representative, though, can be paid for up to four days a month, and those are in session. Under House rules, a lawmaker can be paid a maximum of four days (\$36 each) and two nights (\$16 each), plus mileage for two days.

To be paid, a voucher must be signed which shows the member was at the Capitol attending a committee meeting or handling correspondence or other chores.

Should the population hit 10,000 it won't be without precedent. Siefert said he recently saw a report of the dedication of the facilities at Dwight, another prison which was the adult inmate population at that time was 10,500.

"And that was without the institutions we now have at Vienna, Sheridan and Vandalia," he said.

### Few senators show up for sessions

By AL MANNING

SPRINGFIELD — An average of ten legislators attend each of the plenary sessions of the Senate.

Plenary sessions are events in which little business of interest is conducted. No bills can be passed, but they are necessary for housekeeping purposes.

Senators who attend, though, are paid the per diem allowance.

Sen. John D. Davids, R-Springfield, is the only lawmaker to attend all 10 sessions.

"Normally, someone from each party is there," Davids said. "The leadership asked me if I wanted to come to Springfield. That's why they don't have to stay over an extra night."

Sen. Sam Vandaleben, D-Edwardsville, has attended most of the sessions.

Vandaleben is one of 11 senators who consider himself a full-time legislator. Prior to checking the records, we would not have been surprised the full-time legislators were in Springfield more often because they do not have the responsibility of

a job in their home district.

But that's not the case. Some senators who consider legislating their full-time occupation haven't attended a single plenary session.

For example, of course, is a character Sen. Gene Johns, D-Marion, a petroleum distributor, has attended six sessions. Phil Rock, a lawyer, later joined John Schaefer, R-Cary, a full-timer, both attended five times.

Rock is the only one

mentioned who is in a leadership

position and is paid extra

(Rock gets \$6,000 per year, the \$20,000 base pay) because they are responsible for the details of the legislative operation.

By contrast, the House of

Representatives does not pay

its members for attending

plenary sessions.

A representative, though,

can be paid for up to four

days a month, and those are

rules, a lawmaker can be paid a maximum of four days (\$36 each) and two nights (\$16 each), plus mileage for two days.

To be paid, a voucher must

be signed which shows the

member was at the Capitol

attending a committee meet-

ing or handling cor-

respondence or other chores.

## Sierra Club views replacement of Alton dam as harming wildlife and transportation balance

Following is testimony to the U.S. Senate Committee on Commerce by the Sierra Club on S. 3425, offered by Senator Gaylord Nelson and others, dealing with problems relating to Locks and Dam 26 on the Mississippi River at Alton.

The Sierra Club was among the groups that filed suit in federal court in this matter on Aug. 6, 1974.

At that time we issued a statement with the Isaak Walton League of America saying:

"It is the opinion of our two organizations that seldom has a more substantial threat to the environment of a major natural resource been promoted with less attention to its consequences than is the case with this planned expansion of Mississippi River and Illinois River."

"We are insisting that the environmental impact on the entire river resource be evaluated, and that the new bridge, railroad and highway be designed in the context of national transportation planning for the upper Midwest."

The Sierra Club believes that this statement holds as true today as it did then and that passage of S. 3425 should lead to a satisfactory solution of the problem.

In the nearly two years that have passed since we issued a preliminary injunction halting work on the Locks and Dam 26 replacement and expansion project, a mountain of verbiage has been generated by the Corps of Engineers on the subject.

Much of this verbiage purports to meet our objections, but is easily refuted by other plaintiffs, and the objections are failing. Judge Richard L. Ladd, Jr., of the U.S. District Court, has studied the Corps' assertions and found them to be without merit.

The Corps has been compelled to provide answers on the relationship of Locks and Dam 26 to systemic increases in overall navigation capacity on the river, failure to analyze the impacts of increased capacity on general transportation patterns in the region and the country, and failed to consider the impact of its activities on the entire Mississippi River environment.

Even assuming the best of intentions on the Corps' part, this comprehensive failure is understandable on two accounts.

First, the Corps itself has long ceased to be a disinterested party in the Locks and Dam 26 matter.

Instead of considering the

question anew, with its decision based on the sorts of sound and comprehensive data and analyses mandated by law, the Corps has merely provided new attempts to justify the decisions it had previously made.

This mode of behavior is probably inevitable when an agency is asked to sit in judgment of its own prior actions, and no unreasonable blame can be laid to the Corps for responding as it has. But it strongly indicates the necessity for outside, dispassionate review and replacement of the Corps' self-interest.

An even more fundamental explanation for the Corps' failure lies in the fact that it has issued a draft environmental impact statement, which it was asked to do. The

Sierra Club believes that this statement, as it stands, fails to recognize the need for agency self-interest to overcome, but is perhaps not reasonable to expect the Corps to do so.

Again assuming the best of intentions on the part of the Corps of Engineers, either by statute or in reality, with definitive expertise in either of these two fields.

Again assuming the best of intentions on the part of the Corps of Engineers, either by statute or in reality, with definitive expertise in either of these two fields.

by the Corps of Engineers, do not support the Corps' proposal for an expansion.

The Sierra Club believes that the Department of Transportation is in the best position to analyze the transportation impacts of the project, and we urge that DOT be given authority to conduct a complete study, through passage of S. 3425.

Section 2 (b) of S. 3425 directs the secretary of the Interior to conduct a study of the environmental impacts associated with replacement and expansion of Locks and Dam 26.

Interior also has had involvement with this problem and, in 1974, agreed to agree to agree with Corps assessments.

In Jan. 1976, letter to Colonel Peterson, Jack E. Hembill, director of the Corps' Office of the Environment, requested that replacement and expansion of Locks and Dam 26 proceed until the Department of the Interior is given the opportunity to conduct a study of the environmental impacts of the proposed project on the upper Mississippi River and the Corps' findings on the structure inadequacy of the existing facility.

The Corps did nothing publicly to dispel this impression. Upon further investigation by unpaid Sierra Club volunteers, it was shown that the delay was caused by the Corps' failure to recognize that the delay was caused by a lack of a guidance cell that was not a part of the Locks and Dam 26 structure itself, which had been built about 30 years after the main structure.

Furthermore, it is believed that the Corps had known about the inadequacy of the structure since 1974, but had for nearly two years neglected to undertake the minor changes that would have completed the problem.

It should be noted that the need for studies has not been controversial even by those who advocate immediate replacement of the structure.

Section 2 (a) of the bill directs the Secretary of Transportation to perform a study of the economic and transportation consequences of replacement of Locks and Dam 26.

At the request of your committee, the department had already conducted a brief preliminary study of the Locks and Dam 26 question, and it has found that it is unable to confirm the Corps' assertions regarding the need for an expanded facility.

It is clearly time to change that situation and, if S. 3425 does not provide the necessary objective analysis.

Section 2 (a) of the bill directs the Secretary of Transportation to perform a study of the economic and transportation consequences of replacement of Locks and Dam 26.

We completely fail to see the logic in directing the agencies to study a fail accompli.

We hope that Congress will agree that the primary task is to make a decision, not to decide and then conduct a piecemeal post mortem.

It has been suggested that immediate action is needed to replace Locks and Dam 26 because of the pernicious physical condition of the existing structure. To this argument we would make two responses.

First, the allegations concerning potential failure of the existing structure stem from the Corps of Engineers.

Second, the Corps of Engineers has not yet determined what kind of replacement is needed. Any additional taxes would only mean more financial burden.

To the Editor:

Congratulations! Your editorial concerning the United Way merger study was very informative.

I, too, know from experience how destructive this study could be to this community.

We have a "community spirit" here that many areas

lack and, therefore, do not understand. Yet, they want a part of what we do!

It seems to me that the study is a study of how to create a "community spirit" in Alton. This would help Alton, and they would not need to merge with successful cities.

We learn by doing. When we

are organized and then over-organized, we take away the joy and pride of individual participation.

I hope the people of the Quad-Cities will use our community spirit and stop this idea at once.

As you have said, "... before it becomes even more destructive to this community."

EVA MEIER

To the Editor:

I think it's very strange how local county supervisors are pushing the sewer project. I thought they knew something that I did not know about Eagle Park.

After making a survey of the area, I found there are 271 lots in Eagle Park, of which 109 are vacant.

The remaining lots are occupied, and least 12 are owned by people under 50 years of age.

The remaining lots are occupied, and least 12 are owned by people under 50 years of age.

With a 563 population, 93 are gainfully employed, of which 36 are women. And 97 men and

women are receiving Social Security.

All of the senior property owners are on the "circuit breaker" tax program and are paying less taxes than their immediate needs. Any additional taxes would only mean more financial burden.

There is no way for an area like Eagle Park, with its poor tax base, to cope with a sewer plan like this.

At a total expense to the residents of Eagle Park, water lines, fire hydrants and street lights were installed. There was no federal money to help or assist us.

We've asked that those projects put on our taxes, which were turned down by the County Board.

HERMAN SMITH

## Aphids at peak on roses, mums

By WAYNE R. SHEFFERT

Lake of the Ozarks Conservation Agent  
Dry weather and hot days are causing chickweed and speedwell to ripen and die. If you notice suspicious thin spots that last more than one or two days, it may be a change in the population as these weeds disappear. You can easily check this theory by looking closely at the dead plants.

When a grass disease there was, you can find clumps of dead grass scattered among healthy plants. When the weeds are gone, dried-up weeds, or rotated out, eat every grass plant looks O.K.

"It's too late to renew," But it's not too late for crabgrass! Don't water frequently to stimulate the surviving grass or crabgrass and know it will take root in those areas before the surviving grass can spread. Deep soaking will maintain growth of the grass if it doesn't rain. Tall mowing will help shade the soil and promote grass growth in the surviving areas. Next fall, plan on reseeding with bluegrass.

Aphids have had their peak on many trees and various of ornamental trees and shrubs. New shoots will show a multitude of insects along with numerous paper-like skins of young aphids. Where aphids are developing on young growing vegetables

### SIEU consumer conference

Consumer Education, a course now sponsored by the business education department at Southern Illinois University at Edwardsville and the Beta Chapter of Delta Pi Fraternity, honorary business education students started today all 5113.

Consumer Education is the first in a summer schedule of four conferences designed for business education students. This program is especially designed for home economics or business teachers, according to Robert Schubert, chairman of the department of business education at SIEU.

The four conferences are designed to attract business teachers from the area who want to come back and get one day's shot in the arm, to speak with their colleagues. The meeting sessions are designed for the practitioners and the afternoon sessions are

designed for the consumers. This mini-conference is a joint effort between the coordinated Program in Consumer Education (RR 555) and Instructor for the course scheduled daily from June 21 through July 2 in Paducah. The guest speaker for the department of business education Guest speaker will be Larry Coyleman of Indiana State University.

The other three conferences are: Vacation Shorthand (July 4); World of Work (July 19); and Changing Officer Personnel Practices (Aug. 2). All will have two week-long workshop college credit courses held concurrently with them.

More information on the mini-conferences is available by contacting Willie Pyke, coordinator of the Consumer Education and Changing officer personnel practices at 1-480-2732 and John Clew for the World of Work Mini conference at 1-492-2930.

The first place to go in the Holy Land is the Dead Sea which offers many benefits of an underwater environment.

and flowers or small saplings, treatment with diazinon or malathion will do the trick. You will need to treat again in seven to ten days if a new population appears.

Aphids will gradually disappear as predators increase and a rapid increase in predators provide adequate control. Make a careful survey of your favorite plants to determine the extent of damage. If leaf curl and twigs distortion is evident, take prompt action.

Shiny droplets of sticky material on lower leaves, automobiles and lawn furniture are indications of aphids. Aphids cannot utilize the sugar in plant sap, and droplets of this sugar are very objectionable.

Predator insects are easily observed as individual insect larva roaming over the leaves near the aphid colony. Several different kinds prey on their enemies. See the article "Predators" for more information.

## Church bus law proposed

State Representative Everett G. Steele (R-Glen Carbon) has introduced legislation to require vehicles to stop, when a church bus is loading children.

A recent fatality in Godfrey, where a 6-year-old child leaving a church bus was killed by a passing motorist, has drawn attention to the need for additional legislation in regard to church bus safety. "At present," Steele stated, "existing statutes only affect school buses."

"Whether a child is riding a church bus or a school bus,"

## Army cash enlistment bonus reduced June 30

Lieutenant Colonel George Geers Jr., commander of the St. Louis Army Enlistment Recruiting Station, announced today that the Army's \$2,500 cash enlistment bonus will be reduced by \$1,000 after June 30.

The \$2,500 bonus is currently paid to men who enlist for training in one of four combat jobs, Lt. Col. Geers said. "After June 30, however, the bonus will be reduced to \$1,500."

This reduction is due to the

success of the volunteer Army. "Any young men who are considering enlisting for one of these specialties should enlist now while there are still places open," he said. "They wait until after June 30, they'll have made a \$1,000 mistake," the recruiting commander said.

Combat jobs paying the \$2,500 cash bonus are in the fields of infantry and armor. The bonus is paid in addition to the regular monthly salary and benefits. Jobs are open to men only, age 18-34, and the applicant must have a high school diploma and score satisfactorily on the entrance test.

Although the combat arms jobs are considered to be the backbone of the Army, the number of openings is limited. Applications for a bonus job could enlist now for the Delayed Entry Program and leave for service sometime before June 30.

For more information concerning enlistments are available from Sergeant First Class Thomas Sparks or Staff Sergeant John Keene at the U.S. Army Recruiting Station, 1200 Niedringhaus Ave.

**EXAMINING OPTICOM SIGNALS**, which clear major intersections for emergency vehicles in Granite City are city officials and Robert Evans of the 3M Co., which developed the system. Evans points to light sensors, resembling antennas, which detect an oncoming emergency vehicle and turns the traffic lights green for

the vehicle. From left behind Evans is Chief of Police Ronald Veizer, Mayor Paul Schuler and Fire Chief Don Parente. They are shown at 23rd Street and Madison Avenue.

There was only minor damage. Firemen were on the scene 50 minutes.

### SOMETHING TO SELL? TRY A PRESS-RECORD CLASSIFIED AD

Opticom, a system which turns traffic signals green in advance of emergency vehicles at major intersections, has gone into operation in Granite City.

The 3M Co., developers of the Opticom system, completed their final installation last week and the system was placed into operation after testing all of the intersections.

Strobe-like lights are installed

on top of fire trucks, police cars and ambulances which are turned on when the vehicles are on emergency runs.

Sensors at the major intersections detect the pulsating beam of light from the vehicles about 1,800 feet away and turn the traffic lights green from the direction the vehicle is traveling and red for oncoming traffic and cross-traffic.

The system is designed to reduce the risk of accidents similar to the March 1976 accident at 27th Street and Madison Avenue when a motorist and his son were killed in an accident with a fire truck.

The system is operating at 16 major intersections on Madison Avenue, Nameoki Road and at 19th Street and Niedringhaus Ave.

**DEDICATING NEW SYSTEM** which turns traffic light at 16 major intersections green for oncoming emergency vehicles, city officials gathered at the main Granite City fire station as the system was placed in effect. From left are City Engineer Monroe Brewer; Chief of Police Ronald Veizer; Robert Evans, representing the developer of the system, the 3M

Co.; Mayor Paul Schuler; Fire Chief Don Parente; Alderman Everett Morlen of the First Ward; Alderman Warren Decatur of the Fourth Ward; Alderman Curtis Blevins of Ward Five, and Ed Schulze, assistant city engineer. The light on top of the truck immediately above Decatur activates the Opticom system.

## Offer Upward Bound program

"Education is the name of the game and the Upward Bound Program at Southern Illinois University at Edwardsville," according to program director Elven Davis. "Was designed especially for those people who either failed to finish their educations or who lack confidence in their scholastic skills."

Davis said the program enables persons who have completed the 10th grade to go on and finish their high school educations while learning the skills needed to "make-it" in college.

"Upward Bound offers an enriched high school program, especially strong in the basics of reading, writing and oral expression," he stated.

Upward Bound began in East St. Louis in 1968. "Its purpose," Davis said, "was to assist disadvantaged members of the community and underachievers in area high schools."

Since then, he added, "the program has expanded to include the areas of Madison and St. Clair Counties."

Davis stressed the fact that applications for this year's program, beginning July 1, will be accepted up to and including July 1. He also stressed that students enrolled in the Comprehensive Educational Program will also be accepted.

According to Davis, the only qualifications for the program are that applicants have earned at least eight hours of high

school credit and that they meet the program guidelines set by the Office of Education.

"For further information concerning the program or where to pick up applications, contact the Upward Bound Office in Room 101 of the John S. Rendleman Building at SIUE, or phone 4-822-2052," Davis concluded.

## See bright future for A.O. Smith

A. O. Smith Corporation expects greatly improved sales and earnings in the second quarter and the first half of the year compared with the same periods last year. L. B. Smith, chairman and chief executive officer, said in New York City last week:

"Operating in a group of diversified industries, Smith predicted sales of manufacturing businesses in the second quarter would rise some 30 per cent to about \$160 million from \$120 million last year. For the first six months, Smith predicted a sales rate of about 44 per cent to \$340 million from \$230 million a year ago."

Smith pointed profits in the second quarter from continuing businesses at \$5.1 million and \$5.6 million from \$1.1 million per share. He compared with \$6.6 million in profits for the second quarter of 1975. For the first half of the year, earnings from continuing businesses will amount to between \$10.4 million and \$10.9 million or from \$2.10 to \$2.20 per share. This compares with earnings of \$242,000 or 5 cents per share in the first half of

1975. In addition, Smith said the company had reported a profit of 5 cents per share on the sale of A. O. Smith's meter systems business, making total earnings for the six months in the range of \$12.12 to \$12.30 per share compared with 22 cents last year when discontinued businesses contributed 17 cents per share.

Smith attributed the substantial increase in the company's manufacturing economy, and primarily to improving sales in the auto and air conditioning and refrigeration industries.

In the first six months of 1976, Smith pointed out, sales of the company's automotive division, which makes auto and truck frames, including the Granite City auto frame plant, increased 10 per cent from a year ago and will be at record levels. Likewise, sales of electric motors used primarily in air conditioning and refrigeration have risen up to record levels for a year ago, he said.

All other operating units, except the Reinforced Plastics division of A. O. Smith-Indiana, years. Increasing volume will help the division report substantial profits in both the second quarter and six months compared to losses in both periods last year.

Smith told the analysts that demand is so good that sales of continuing businesses in the second quarter and first half of the year will be at record levels.

A. O. Smith, with its subsidiaries and affiliates, is a widely diversified manufacturer. Its product line includes water and heating equipment, electric motors, agricultural feed storage and handling systems, auto and truck frames, glass fiber reinforced plastic pipe, metal powder and computer services.

## Hurt in fall

Tom Marks, 24, Centreville, was injured when he fell from a curb and struck the back of his head on a concrete step, causing a possible skull injury at 3 a.m. Friday.

The cut was sutured at St. Elizabeth Hospital and he was transferred to Fermi Designe Hospital, St. Louis.

## Integration plan revised

A revision of the Madison school system's plan of desegregation was authorized for submission to the State Board of Education by the Madison School Board in a regular meeting Thursday night.

The board approved the desegregation outline prepared by Superintendent of Schools John Palchek in an effort to meet guidelines established by the state board.

Palchek said details of the program will not be made public until they have been considered by the state board and the State Superintendent of Education, Frank C. Cimino.

"Actually, the new outline consists only of some revisions in some of the points of our program as originally outlined," Palchek said.

The School Board action Thursday night was taken to comply with a June 22

(Tuesday) deadline for submitting a new or revised program.

With the state held the Madison district's desegregation program insufficient early this year and called for the district to submit a new program, the district was granted an extension of time for action to the June 22 date, Sup. Palchek said.

Madison school officials have maintained its desegregation program complies with the state guidelines.

Under present State Education Board desegregation guidelines, a district is listed in non-conformance with the rules if any of its schools fails to reflect within 10 per cent, the minority racial composition of students and staff of all the others of the district's schools.

The board Thursday night also authorized Palchek to prepare the new temporary budget and appropriation ordinance for action in the board's Aug. 19 meeting, and set Sept. 23 as the date for final action on the budget. This action will change the board's regular September meeting date from Sept. 16 to Sept. 23.

A resolution authorizing a tax levy of four cents per \$100 assessed value for the maintenance of classroom construction, or to alter school buildings of the district for special education classes, was passed.

The special education tax levy has been extended annually since 1972 and revenue from the levy is being accumulated to provide a fund sufficient to permit the district to include special education classes in construction of the new junior high school now being planned.

A resolution authorizing a tax rate of five cents for the 1976-77 school year to maintain existing school buildings under requirements of the Life Safety Code also was approved.

In a related action, the board also authorized the superintendent to file a petition with state authorities for an extension of time to complete safety code alterations at the Madison High School and Dunbar School.

A resolution for a \$1,000 bond for School Treasurer Ray Kozielek was awarded to the Mochel Agency, Inc., of Downers Grove III, on a premium bid of \$22 for one year. Other bids were submitted by Fijian Maeras Agency of Madison at \$679 for one year and the Kaegele Insurance and Real Estate Agency of Granite City at \$500 for one year.

The board also designated Palchek as the board's official representative for development of all State of Illinois special education programs that include school social services, physically handicapped, educationally handicapped, partially deaf and partially blind, speech correction, cooperative programs and other gifted programs and the Area One special education cooperative district which also includes Granite City and Venice.

The board received three bids to furnish the district with gasoline, but all of the bids were tabled pending clarification of prices quoted.

A call for bids to furnish 12 entrance signs at the high school was authorized at Palchek's request, as was a call for bids to furnish fuel oil and coal during the winter season.

Kozielek reported to the board that the district had a balance of \$1,044,107 in all operating accounts. He said the district now has on deposit \$100,000 at 5.75 per cent interest and \$507,700 at six per cent interest in certificates of deposit for the school construction fund.

THE PLAYER STOLEN

An eight-track tape player, worth at \$40, was removed from the home of James T. Benny Evans, 9423 rear Grand Ave., he told authorities at 11:55 a.m. Friday. A vent window was broken to gain entry.

Commercial Credit. Monthly payment based on a \$5,000 HomeOwner loan, for 84 months, at an annual percentage rate of 16%. Total payment \$8,342.04.

**Bike-A-Thon**  
entry forms

Forms for bicycle riders to  
register sponsors in the Granite  
City Bike-A-Thon to aid the  
American Cancer Society. Forms  
available this week at area  
business firm and stores.  
Joseph Lucido, local chairman  
for the Cancer Crusade, said  
today.

Registration of participants  
will take place at noon Sunday  
at Niedringhaus School, with the  
riders following a four-mile  
route between the school to 18th  
Street and back to the grade  
school.

Ten-speed bicycles (two) will  
be given the man or boy and  
woman or girl who collected the  
most donations from sponsors,  
according to Earl French, who  
is among the Bike-A-Thon  
organizers.

**CAR IS LOOTED**  
Items with a total value of  
about \$275 were stolen from  
the car of David W. Chullet, 19  
Mooreland Drive, Mitchell,  
between 9:30 p.m. Saturday and  
noon Sunday. The car was  
locked down on West Chain of  
Rocks Road at Route 3. A vent  
window was forced open to  
allow the door to be unlocked by  
reaching through. Stolen were a  
tape deck, FM radio converter,  
speakers, the battery, a  
baseball glove and tools.

The driver of the car, Charles  
Wiles, 2219 E. 23rd St., said he  
had his original operation  
stolen and was half way through  
his turn when the pedestrian  
stepped from the curb, apparently  
thinking the car was continuing straight.

Miss Fuchs was taken  
immediately to St. Elizabeth  
Hospital where she was admitted  
with a fractured left leg  
and abrasions to her left leg and  
ankle. A series of x rays was  
taken.

Patients admitted to St.  
Elizabeth Hospital Saturday:  
Howard Kaiser, St. Charles;  
John Jackson, 1900 S. 10th, 2015  
Street, Madison; Franklin  
Sorenson, 22 Briarcliff; Luetta  
Frith, 2596 Stratford; Warren  
McCauley, Fairmont City;

**Dam replacement backers outnumber foes at hearings**

By LESTER BELL  
Press-Record

Washington Bureau  
Backers of the proposed Lock  
and Dam 26 replacement south  
of Alton have been in the  
majority of those wishing to  
testify at Senate hearings on the  
issue, according to sources.

Sen. Mike Gravel, D-Alaska,  
chairman of the Public Works  
Committee's Water Resources  
Subcommittee, scheduled the US  
Army Corps of Engineers  
to appear today. Three members  
of Congress and affected  
states tomorrow "and  
public witnesses this Thursday."

Rep. Paul Findley, D-20th  
Dist., in whose district the  
dam is situated, has asked to testify  
in support of the new lock and dam  
to replace the present crumbling  
facility.

Subcommittee staff sources  
said a "bulk of requests came  
as waterways interests, barge  
lines, farmers groups and  
electric utilities."

In what some have regarded  
as a strong alliance, environmentalists  
and the railroads have lined up in  
opposition to the proposal.

The railroads are working  
here through the Western  
Railroad Association, to  
which their spokesmen for  
the senate hearing, staff  
sources said.

Environmentalists have sent  
in few requests to testify, and  
few were expected.

The railroads tend to divide  
members, some addressing  
themselves to air pollution

while others are concerned with  
water pollution. The Sierra  
Club and the Izak Walton League  
as well as Washington environmentalists  
are expected to represent this  
group.

Both sources concede that the  
issue is highly charged. The  
pro and cons will be well  
represented.

"Believe me, they will,"  
stressed a staff source.

Findley, who opened the hearing  
yesterday, told the railroads  
that the lock and dam should be  
replaced.

Findley said that in a meeting  
with Coleman, the secretary  
declared his support strongly  
and made it clear that if one  
that the lock and dam should be  
replaced.

Findley said that in a meeting  
with Coleman, the secretary  
declared his support strongly  
and made it clear that if one  
that the lock and dam should be  
replaced.

"The only issue is at what  
capacity. If we replaced it as  
it is now, it would result in  
nothing more than obviously  
there's no problem."

"If we expand the capacity,  
we do have the problem of  
whether that would take away  
so much business from the  
railroads," Findley said.

Coleman said he is neither for  
nor against the expanded dam.

"My only position is that  
before Congress acts on that  
issue, we ought to have all the  
facts before them, because it's  
up to Congress."

Findley called Coleman's  
clear support "an important  
step forward."

**Hospital notes**  
in accident

Miss Pamala Fuchs, 16, of  
214 Lindell Blvd., was injured  
when she stepped from a curb  
at noon Saturday and ran  
into a car pulled with the right rear  
tire of an auto turning right  
from Madison Avenue.

The driver of the car, Charles  
Wiles, 2219 E. 23rd St., said he  
had his original operation  
stolen and was half way through  
his turn when the pedestrian  
stepped from the curb, apparently  
thinking the car was continuing straight.

Miss Fuchs was taken  
immediately to St. Elizabeth  
Hospital where she was admitted  
with a fractured left leg  
and abrasions to her left leg and  
ankle. A series of x rays was  
taken.

**Defense planned in tax case on store fixtures**

A comprehensive defense  
presentation is expected to be  
made by Reese Drug Stores on  
sales and use tax charges an-  
nounced late last week in  
Springfield.

A June 30 hearing has been set.

Criminal informations were  
filed Tuesday in the Sangamon  
County Circuit Court against  
the drug store chain, its  
president and a manufacturer  
of store furnishings.

A Revenue Department  
spokesman said it will contend  
that there is no grand jury  
action; informations are  
utilized in some areas in place  
of the indictment process. No  
indictments have been sought  
on either charge.

The Myers firm manufactures  
and sells store furnishings.  
A Revenue Department  
spokesman said it will contend  
that there is no grand jury  
action; informations are  
utilized in some areas in place  
of the indictment process. No  
indictments have been sought  
on either charge.

**STEAL AUTOMOBILE**  
The lime green 1970 two-door  
dodge Challenger of Richard  
Paterson, 4040 Garden St.,  
was stolen from the 2800  
block of State Street, it was  
discovered at 4:50 p.m. Thur-  
sday.

A spokesman here had no  
comment pending the hearing.

It was learned that extensive  
allegations concerning one  
of three false sales by  
Reese Drug Stores, Inc.,  
of Granite City; three counts of  
alleged perjury and three  
counts of alleged subordination  
of perjury. John Reese, 42,  
Granite City; and three counts  
of false sales tax returns, Myers  
Industries, Inc., of Lincoln.

# Harvest of wheat begins

## Low water level is navigation threat

Low water conditions have reduced traffic on the Lower Mississippi River.

Major General F. P. Koisch, president of the Mississippi River Commission, explains that a general lack of rainfall in the spring has been sent the river into the lower range of seasonal levels and, as a result of the low stages, the water depth at several locations between Baton Rouge and New Orleans is now at depths of less than 9 feet, which is the minimum depth authorized by Congress for the navigation channel.

"I don't expect the flow situation to materially improve until the dry season receives heavy rains, which normally begin in the late fall," said Koisch.

The Army Corps of Engineers now has two of its dredges at

work and is preparing to place another in operation later this week. Critical crossings are being watched frequently by channel patrols, and additional dredges will be hired if warranted by future conditions, General Koisch said.

"The Mississippi will be kept open to navigation," he added, "but tow boat pilots will have to be extra careful at locations because the channel is not approaching minimum depth but also its minimum width is only 300 feet."

"I don't expect the flow situation to materially improve until the dry season receives heavy rains, which normally begin in the late fall," said Fischer.

### Ann Zimmerman helps nurses

Anne Zimmerman, R.N., executive administrator of the Illinois Nurses' Association, Chicago, has been elected president of the American Nurses' Association in Atlantic City, New Jersey.

Miss Zimmerman, 61, has been chief executive of the Illinois Nurses' Association for 21 years. She was elected 24th president of the national organization by the 1976 Delegates at their week-long halting at the N.A.'s 50th convention. The American Nurses' Association has more than 200,000 R.N. members, the largest group of health professionals in the United States.

Well-known nationally and internationally as a pioneer in collective bargaining, Mrs. Zimmerman was elected to the Board of Directors in 1946 when the association first went on record in favor of collective bargaining for registered nurses.

As an authority on the sub-

ject, she has represented nursing at labor conferences in Geneva, Switzerland, in 1973, and in Moscow, USSR, last October.

### 4 hurt in car, cycle accident

Four persons were injured in a 2 p.m. Saturday when an auto driven by Linda Starr, 23, of Caseyville, and a motorcycle operated by Lance Sims, 18, of Rock Creek Ave., collided on Canal Road near Old Chain of Rocks Road.

Linda Starr was admitted to St. Elizabeth Hospital for observation with pains to her hips and arms. Her son, Michael, 22 months, was examined and released.

Sims suffered abrasions to his legs and was admitted to St. Elizabeth Hospital for observation and with possible leg injuries.

"Wheat dries to safe storage moisture contents at any time the average relative humidity is below 60 per cent. If the relative humidity averages above 75 per cent, some supplemental heat is needed, raising the temperature of the air three to five degrees."

"It is best to allow wheat to naturally dry in the field to the proper moisture content for storage, and utilize natural drying methods when it is necessary to harvest early in order to get an early planting of the second crop," Fischer is advising local farmers.

## Workshop for dentists

Two professors from Indiana University will conduct a workshop for practicing dentists at the Southern Illinois University at Edwardsville School of Dental Medicine on Wednesday.

The workshop, "The Vitreous Carbon Tooth Root Replacement System," will familiarize dentists with the uses of these implants and teach them how to properly place the implants in patients.

The two visiting dentists, Dr. Donald M. Cunningham and Dr. Charles E. Cun, will act as a team in the implantation technique process. Dr. Cunningham builds the prosthesis, the implant, and Dr. Hutton does the surgery.

Dr. Richard Coy, director of Advanced Educational Programs at the SIUE dental school, said implants have undergone extensive development research for nearly five years at several medical research facilities and dental schools.

Animal experimentation of implants led to the controlled use of them in selected clinical cases for several years. Dr. Cunningham, in the process of these studies, vitreous carbon implants are now available for use by the dentist after he completes an approved course on the system.

Richard Coy, director of Advanced Educational Programs at the SIUE dental school, said implants have undergone extensive development research for nearly five years at several medical research facilities and dental schools.

Animal experimentation of implants led to the controlled use of them in selected clinical cases for several years. Dr. Cunningham, in the process of these studies, vitreous carbon implants are now available for use by the dentist after he completes an approved course on the system.

**LOCAL EXPLORERS TAKE A BREAK.** Eighty-five Explorers and leaders of several local Explorer Posts took a four-day canoe trip down the Meramec River in Missouri. The trip was the second of three council-wide events scheduled by the Explorer Presidents Association Planning Conference. The Explorers, who include both young men and women

between 14 and 21, enjoyed cooking, camping and sleeping in the rain. Although the days were clear, it rained every night. Officer Glenn Wright, advisor to Explorer Post 10-33 sponsored by the GC police department, was in charge of the vent.

**IN GOOD HANDS** Cahokia Mound Council Explorers were in "good hands" on their canoe trip. Two of the adult leaders enjoy a snack as the third guides this canoe as they float down the Meramec River. From left,

Sister Ann and Sister Susan who were with Explorer Post 9, sponsored by St. Elizabeth Hospital, and Paul Hoffman, an associate adviser of Post 10-33.

**RUBBISH SET ON FIRE**  
Rubbish at Jack Cochran, 2030 Washington Ave., was believed to have been set on fire last week. The fire caused only minor damage and was extinguished by Granite City firemen who were on the scene 15 minutes.

### New guidelines set for low price meals, milk

New income poverty guidelines for determining eligibility for free and reduced price meals and free milk under the child nutrition programs of the U.S. Department of Agriculture have been announced.

The new guidelines apply to schools and institutions participating in the National School Lunch and Breakfast programs, Child Care Food Program, Special Milk Program or receiving federally donated food.

The income guidelines are effective from July 1 to June 30 of next year and are being issued in advance of advance school boards and administrators in advance planning and budgeting.

The guidelines increase income eligibility by 2.5 percent for each year and reflect the increase in the Consumer Price Index from 1974 through April 1976. For a family of four, this means that the base level of income eligibility increased from \$8,000 to \$8,500.

Based on these national income poverty guidelines, each state's education agency issues guidelines for whether or not children are eligible for free or reduced price meals or milk. The cut-off level for income determining eligibility for reduced price

meals must be set by states at 95 per cent above the national income poverty guidelines.

In establishing eligibility standards for meal programs, states, however, still have the option of placing the cut-off level up to 25 per cent above the national poverty guidelines.

The change in the Consumer Price Index is the basic for USDA's guideline adjustment procedures and is consistent with the Bureau of Census method for updating its Hawaii and Guam because of higher living costs in those areas.

### HAVE YOUR CARPETING BEAUTIFULLY CLEANED IN YOUR OWN HOME

• Carpet • Walls • Upholstery

We use the famous Von Schrader dry-foam method. No moisture goes through to the underside to damage the pile or backing. There is no odor. Carpets can be used the same day.

## River Fest opens Wednesday

The opening week of activities at the Mississippi River Festival, held on the campus of Southern Illinois University at Edwardsville, features three nights of jazz and a night of barbershop harmony.

The Festival opens its 1976 season with the Preservation Hall Jazz Band, a unique group of musicians who play an unprogrammed evening of New Orleans-style jazz that hails from the famous Preservation Hall in the heart of the French Quarter of New Orleans.

The next night, Thursday, the Benny Goodman Sextet will perform. Both bands will play in the King of Swings, which has been in the forefront of jazz music since the early 1920's, when he organized his first band and performed on coast-to-coast radio. The Billy Bum Band, the Mud Hens, Today in his mud men, Goodman remains at the

apex of his field, playing both jazz and classical music.

On Friday Chuck Mangione and Esther Satterfield will round out the three nights of jazz with their presentation of modern jazz.

Mangione has been called "a modern jazz giant," as instrumentalist, composer, arranger, songwriter, symphony-orchestra conductor. His style is based on melody and harmony rather than the lessing on percussion.

Mangione plays the flugelhorn, which has a mellow tone that is far less brassy than the trumpet.

He has also composed his jazz growth includes working with his brother, Gap, in a small jazz group, and later working with Maynard Ferguson, Art Blakey, Woody Herman, and other bright lights of jazz.

Singer Esther Satterfield singing an important supporting

role in Mangione's work, with a voice that blends well with Mangione's horn in such important recordings as "As Long As We're Together," "So Long," and "Land of Make Believe."

The June meeting of the board of governors of the Co-ordinated Youth Services was held at the Granite City offices at 1256 Niedringhaus Ave., led by the president, Richard A. Dr. Roy L. Ritter spoke

on a summer camp program being conducted in this area by the National Youth Foundation.

The board agreed to co-operate with the NYF, the Granite City Community Authority, and Madison County Housing Authority in a joint effort to send 60 local youths to camp sessions near Xenia.

The board accepted the recommendation of the bus committee, headed by Wade James, and agreed to purchase a minibus with funds from the Illinois Law Enforcement Commission.

Allen disclosed an agreement between Co-ordinated Youth and the Quad City Children's

Clinic whereby both groups agreed to cooperate in the special supplemental food program (WIC). The program is to supply pregnant women and children up to five years of age with health and nutritional medical services and special supplemental food programs.

Sparks said he then chased the auto to Waterman Avenue and onto Waterman Avenue to Vincennes passing the car at Lynch Avenue.

He alleged when he passed the car trying to stop it, his car was struck from behind by the other auto which then sped from the scene.

Sparks suffered injuries to his neck and right arm. He underwent x-rays at St. Elizabeth Hospital and was released the child in the car at Kreck, 7, was treated for a right shoulder injury and also was released.

Sparks furnished officers a description of the car which led them to go to the home of Richard Schmidt, 40, of 2523 Lynch Ave. Officers alleged Schmidt and another youth were examining damage to Schmidt's auto when police arrived.

Schmidt was charged with reckless conduct and reckless driving and Robert Tegel, 17, of 2549 Lynch Ave., was charged with disorderly conduct.

It was explained that the timing devices could be set for a maximum of one hour and that more than one hour elapsed when the bombs were found and when they were deactivated.

Bomb experts noted however, that the bombs "were made to detonate and would have exploded had the wire taped to the face of the clock and the wire taped to the top of the clock touched."

The timing devices were recovered and found to be operating. The experts said they do not understand why both bombs failed to explode.

Officers estimated that the bomb in the Wimme yard had exploded under the decked front of that house as well as damaging other nearby houses and blowing the windows out of most of the houses in the block.

The bomb inside the Terry home as well as could have destroyed that home and damaged surrounding homes had it exploded.

Anyone nearby when the bomb exploded could have been killed or seriously injured, they added.

The bombs were examined and were placed in plastic bags and

then taken to the Granite City Police Department for processing.

The bombs later were taken by ATF experts for study.

Since the timing devices had been altered when the bombs were deactivated, investigators were unable to determine whether the bombs had malfunctions or whether they were due to explode.

He is survived by two daughters, Mrs. Edward (Loui) Brockmeier of Bloomfield, Colo. and Mrs. Thomas (Carol) Cathey with whom he had been living in Granite City; one brother, Frank Johnson, and one sister, Mrs. William (Gladys) Heffern of St. Louis; four grandchildren and one great-grandchild.

Funeral arrangements are listed in today's obituary column.

### Julius J. Hocher, 86, dies

He is survived by his wife, Mrs. Mary Hocher, two brothers, Carl Hocher of Troy and Elmer Hocher of Florida; two sisters, Mrs. Martha Dresler of Lebanon and Mrs. Bertha Raubabush of Little Rock, Ark.

Funeral arrangements are listed in today's obituary column.

He is survived by his wife, Mrs. Mary Hocher, two brothers, Carl Hocher of Troy and Elmer Hocher of Florida; two sisters, Mrs. Martha Dresler of Lebanon and Mrs. Bertha Raubabush of Little Rock, Ark.

Funeral arrangements are listed in today's obituary column.

### Investigate

(Continued from Page 1)

to warn neighborhood residents to evacuate the block. They also were joined by Assistant Chief George Teller in canvassing the neighborhood.

All of the people were cooperative and curious—wondering what it was all about. Foley said he said most people were friendly and helpful, some were out of the way, but some stayed nearby, apparently out of curiosity.

While police were waiting the arrival of the bomb squad, the 19-year-old boy, son of a III called to his mother at their home across the street, "Look Mommy," and pointed to another bomb in the grass beside the fence about 18 inches from the sidewalk.

His mother, Mrs. Melva Weston, 217 Hardin Blvd., looked at the bomb and called for officers across the street.

Other houses near the Weston home were searched and a Granite City Police squad car met the St. Louis Bomb and Arson Squad van at the McKinley Bridge and escorted it through the Army installation to the West Guardhouse.

Mr. Durst, a bomb expert, quickly deactivated the bomb at the Weston home at 9:30 a.m. by pulling the face off the timing device and clipping the wires.

He and another expert, Ronald Grop, then went inside the Terry home, where the first bomb found was promptly deactivated.

The bombs were examined and were placed in plastic bags and

then taken to the Granite City Police Department for processing.

The bombs later were taken by ATF experts for study.

Since the timing devices had been altered when the bombs were deactivated, investigators were unable to determine whether the bombs had malfunctions or whether they were due to explode.

It was explained that the timing devices could be set for a maximum of one hour and that more than one hour elapsed when the bombs were found and when they were deactivated.

Bomb experts noted however, that the bombs "were made to detonate and would have exploded had the wire taped to the face of the clock and the wire taped to the top of the clock touched."

The timing devices were recovered and found to be operating. The experts said they do not understand why both bombs failed to explode.

Officers estimated that the bomb in the Wimme yard had exploded under the decked front of that house as well as damaging other nearby houses and blowing the windows out of most of the houses in the block.

The bomb inside the Terry home as well as could have destroyed that home and damaged surrounding homes had it exploded.

## HOW TO CREATE BAD WORKING CONDITIONS FOR BURGLARS AND VANDALS

AUTOMATIC NITE LITE

Good lighting outside your home or business is a wise use of electric energy.

- Light discourages people who may want to steal or deface your property.

- Good outdoor lighting gives your family and guests convenience and safety.

- Outdoor lighting is an efficient use of energy generated at night when the power plants that serve you have idle capacity.

In town or in the country, your home or business is safer and more convenient with an outdoor Nite Lite. Nite Lite is automatic. It turns itself on at dusk and off at dawn. A flat monthly rental fee covers installation of the light, maintenance, and all electricity the light uses.

For more information on Nite Lite, call your Energy Use Advisor at our office.

**IT'S OUR BUSINESS TO SERVE YOU BETTER**  
**ILLINOIS POWER**

## Two injured, two charged after chase

The final night of the first week will be the Saturday evening of Barbershop Harmony with the Thoroughbred Chorus, the 4th Edition, and the Pittsburgh Four.

Two people were injured and two others were arrested following a chase from Pontoon and Maryville roads to Lynch Avenue and Vine Street Thursday.

Jack Sparks, 30 Sunny Shores Mobile Park, alleged he, his wife, and her son, were in his parked car beside Pontoon Road when another auto passed and a dead fish was thrown into Sparks' auto.

The fish splattered around the car's front end and onto the three occupants.

Sparks said he then chased the auto to Waterman Avenue and onto Waterman Avenue to Vincennes passing the car at Lynch Avenue.

He alleged when he passed the car trying to stop it, his car was struck from behind by the other auto which then sped from the scene.

Sparks suffered injuries to his neck and right arm. He underwent x-rays at St. Elizabeth Hospital and was released the child in the car at Kreck, 7, was treated for a right shoulder injury and also was released.

Sparks furnished officers a description of the car which led them to go to the home of Richard Schmidt, 40, of 2523 Lynch Ave. Officers alleged Schmidt and another youth were examining damage to Schmidt's auto when police arrived.

Sparks was charged with reckless conduct and reckless driving and Robert Tegel, 17, of 2549 Lynch Ave., was charged with disorderly conduct.

It was explained that the timing devices could be set for a maximum of one hour and that more than one hour elapsed when the bombs were found and when they were deactivated.

Bomb experts noted however, that the bombs "were made to detonate and would have exploded had the wire taped to the face of the clock and the wire taped to the top of the clock touched."

The timing devices were recovered and found to be operating. The experts said they do not understand why both bombs failed to explode.

Officers estimated that the bomb in the Wimme yard had exploded under the decked front of that house as well as damaging other nearby houses and blowing the windows out of most of the houses in the block.

The bomb inside the Terry home as well as could have destroyed that home and damaged surrounding homes had it exploded.

Anyone nearby when the bomb exploded could have been killed or seriously injured, they added.

## History

(Continued from Page 1)

from Chicago for a generation, became secretary of the Interior and headed the Public Works Administration.

These two parts of the National Industrial Recovery Act formed the most effective portion of the New Deal program in its first years.

Between February 1933 and June 1935, state and federal governments spent \$291,028,458.28 in direct relief in Illinois.

Like earlier relief efforts, however, the number of unemployed kept the actual disbursement per person to a bare minimum.

The percentage of the

population on relief was highest in April 1933 (16.8 per cent), but it never fell below 12.2 per cent during those months.

World War I veterans of the Civil Works Administration cost additional \$46,830,502 by 1936, with wages averaging \$30.54 per hour for a maximum \$60 per month.

The average direct relief payment was \$22.54, and the average work relief was \$32.67 per month.

As with all forms of aid, residents of Cook County received substantially more than those in Downstate counties.

Constitutional stipulations

made it impossible, and the need for additional revenue to meet the emergency led Gov. Henry Horner to ask for a two per cent sales tax. Passage of the tax (later raised to three per cent and now five per cent) was a boon to hard-pressed families.

When its adoption by the Supreme Court, Horner suspended the state property tax, which weighed most heavily on land owners.

Abolition of the property tax reduced state revenues by \$31,000,000, but it remedied what was viewed as an unfair system by which farmers paid a disproportionate share of state taxes.

After 1935, federal aid in Illinois was directed chiefly through the Works Progress

Administration.

By June 1939, there were still 536,866 Illinoisans on direct relief.

An additional 234,855 persons were enrolled in WPA, Civilian Conservation Corps, and National Youth Administration projects.

WPA, CCC, and NYA retained 91,559 on their rolls in August 1939.

Not until 1941 did direct relief fall below 300,000—not including those on old age, handicapped and mother's aid.

Federal grants-in-aid brought some relief, great criticism and great acclaim; the WPA, for example, was accused of boondoggling and political involvement.

In balance, however, while it cannot be said that the New Deal ended the Depression in Illinois, it clearly prevented a crisis; provided major elements of relief and recovery from Depression that the state alone was unable to do; and through the Social Security Act and the Fair Labor Standards Act, added greatly to the lives of Illinoisans not previously

so fortunate.

Many think of the Great Depression as lasting from 1929 to 1933.

In fact, even with massive state and federal aid, Illinois was recovering eight years after the start of the New Deal.

Depressions do not arrive overnight. Unfortunately, they do not go away that fast, either.
